THE MARQUIS OF LORNE, K.T., G.C.M.G.
GOVERNOR GENERAL OF CANADA, 1871-1883

60 YEARS AGO A Charter was signed

On February 15, 1881, the Marquis of Lorne, then Governor-General of Canada, signed the charter of the Canadian Pacific Railway. The signature signified the vision of great Canadian statesmen—Sir John A. Macdonald, Sir Henry McCrear, Sir Georges-Edmond Cartier, and Sir Charles Tupper—that the new Dominion of Canada should be linked from Atlantic to Pacific by a trans-continental railway—and implemented the pledge under which British Columbia entered Confederation.

So began a new era in Canadian unity... and Empire solidarity... for the Railway expanded into a system spanning two oceans and linking three continents. Today—as in 1914-18—a proud responsibility rests on our transportation and communication systems—railways, steamships, freight, express, telegraphs and engineering shops. Canadian Pacific officers and employees everywhere are co-operating—such in his own field—towards the common goal... VICTORY. When that goal is reached—and it will be reached—this will be, in an small measure, to Canada's contribution, and to the vision and foresight of the men who, sixty years ago, planned the construction of the first Canadian trans-continental railway.

Professor-Jones, what would you say to the most offensive way of redistribution of wealth?
Jones—The crime, doghouse, and court of rich men.

Miss Montague (to clerk) Can you pick me out a nice notice that will be just right for tomorrow morning's breakfast?
Bright Clerk—Certainly, madam. What time do you have breakfast?

Guide in Egypt—It took hundreds of years to build those pyramids.
Tourist—Ah, I see. It was a Government job.

A garden called a policeman to view an unexplained bomb. The constable produced his notebook and pencil.

Now what's the name of this road he asked?
Neurobiologist—Tennis, said the warlike. The policeman put his notebook away, picked up the bomb, and started staggering off with it.

What on earth are you doing? exclaimed the warlike.
Muttering this into High Street? Came the answer.

Can you tell me what capital punishment is?
Do you mean taxes?

And what is a synonym, Willie? asked the teacher.
A synonym, said Willie nervously, is a word you use when you can't spell the other one.

What, please a money-maker. Is most intensely satisfying than the loveless father and son.
Too thin—if the father is keen to be completely dressed.

So you don't like living in the country. What do you most enjoy living out of town?
Trees.

The teacher believed in giving her class lessons in general knowledge.

What is this? she asked one day holding up a small object.
A pay envelope, replied little Freddie promptly.
And what did it contain?
Money, said Freddie.
Showing toward the class. Any questions about it, she said?
Pardon, teacher, remarked one thoughtful child where do you work?

-And Here's to the Ladies!

All the buying of War Savings Certificates is not to be done by the men. But it is to be done by the women. Let them buy their own shares, and then on top of their Red Cross work and other War Activities—Good things they do.

We offer our warm congratulations to the ladies of Alberta for the inspiration and example of their efforts. Because the War Savings Drive is over, we finally believe that there won't be a home in this province that is not pledged 100% to War War Savings Certificates.

We now stand to pay this tribute to Albertans who are working so loyally and so conscientiously to insure the success of the War Savings Certificate Drive.

To Grade North Road

At the recent meeting of the council of the North Road, it was decided that the road will be widened to 11 feet 6 inches from the present 10 feet 6 inches. This will be done by the addition of a 10-foot wide strip of land on each side of the road. The work will be done by the North Road Commission.

The North Road Commission is a body of five members, three of whom are appointed by the council of the North Road, and two by the council of the North Road Commission.

The Weekly Round-Up

Shanty—I heard that you and the girls have been recruited and are to be married after all.

Shanty—Just right. You see, Wang was put on night and so couldn't get the engagement ring off her finger.

It was getting very close to the time for the celebrated guest to make his speech.

The chairman, looking about the table, came over to the speaker and whispered:

Shall we let them enjoy themselves a little longer, or do you think you'd better begin your speech now?

The wife of the professor was having her home decorated. Two plans were having her home decorated plans was literally over run with painters and paperers, and paperers. The foreman approached the lady and reported: We have completed the morning room, ma'am, what next?

You can do the study on Friday, he was told. What shall we do in the interim, madam?

Oh, paper that, too, the lady conclusively replied.

Then there was the noble girl who allowed herself to be taken out by a young man—and when he brought her home and kissed her good night she said: Will that be all, sir?

You'll meet our young colored landlady, I'm getting everything ready for my wedding. Is it happy? Why Ma'am, could any one be happier than a bride preparing for home?

The family quarrel had reached its height. I wish to continue. I'd taken my mother's advice and never married you, cried the wife to her spouse.

Howdy evening, ma'am. Do you mean to tell me, he demanded that your mother tried to stop you marrying me?

Why, no.

Good heavens and hubby, his voice filled with remorse.

How I've wronged that woman!

Young Wife—What is this tickle, darling?

Hubby—Only a pure tickle.

Young Wife—Why didn't you get me, then to catch him?

I've watched the professor, staring up at the sky through the trees, shiver like a leaf.

Presumably a fine lot.

Oh, and the man's a good shot, said Pat.

Local and Personal News of Carstairs

A quiet wedding ceremony took place at the home of Rev. George Pringle (High Priest), Vancouver, when a bride from Waterton, a daughter of Mrs. E. Waterman and the late Mr. Waterman of Carstairs Alberta was married to John Nick Teleg son of Mr. and Mrs. Teleg of Hazy B.C.

The bride wore a beautiful gown with matching accessories of navy and white. Her carriage consisted of rose buds and pale pink sprays of carnations. The bride's sister Miss Thelma Waterman, acted as bridesmaid wearing a navy blue suit with matching accessories of blue. Her carriage consisted of rose pink carnations.

The groom was supported by his brother, J. Teleg, Dawson, Ontario. The bride and groom left directly for Victoria, where they spent a two weeks honeymoon.

They will reside at Hazy.

Maureen Brown, Sherbrook and Waterton entertained last night, in honor of Mrs. Ben Hipkin who left this week for her new home east of town.

Obituary

A well known school teacher who taught in several parts of Alberta, John Thewill Scott, aged 27 of 210 Tenth Avenue east, died suddenly in a hospital on Monday.

Mr. Scott served at Carstairs high school as a vice-principal since Christmas, and previous to that he served as a principal at Springfield and Moon schools. He received his education at Hamilton, East Calgary high schools and Mount Royal College. He had been an instructor of navigation at the R.C.N.V.R. Calgary.

Last year several of Mr. Scott's poems and a biographical sketch and picture appeared in an anthology of new Canadian verse. He sold poems in various periodicals from time to time and was considered to be a promising young western writer.

Servicing are his parents, Mr. and Mrs. William H. Scott, one sister, June, three brothers George and James, and home of 18-month-old son. Funeral services were held at The Little Chapel on the Corner on Thursday morning at 10:30. Rev. Dr. Warwick F. Kellway officiating. Burial Forest Home Crematorium.

For BETTER desserts
DURHAM

Fortunately, the venture is in the nature of an experiment. Even many of those who advocate it frankly admit their misgivings and say that their future course will be guided by how this first attempt works out. In other words is our policy and that of Great Britain with respect to feeding France is still uncertain. That will be determined later.

We would delight greatly to see the United States with its full arm

that it is our duty to feed all the people that Hitler has enslaved. That certainly would be playing into the hands of the Germans with a vengeance. Hitler has announced that any ships carrying food to England whether they be American ships or not, will be promptly sunk. In the face of this we ship food into territory controlled by the Germans and ask the British to permit those ships to be given safe passage. Great Britain has been reluctant to yield on this matter. She yields now reluctantly, because of American pressure and against her own

better judgment. Now that the decision appears to have been made, we in this country whose position has been similar to that of the French will yield too, but we do so with reservations and in the hope that if the result of the experiment justifies our faith it will not be continued.

SELECTED RECIPES

MEAN DUMPLINGS TOP THE STEW

If your dinner's "a stew" just top it off with brain dumplings and you'll do no "stewing" about the success of your meal! This new version of an old favorite, the answer to every cook's ambitious dumplings, which are light digestible and appetizing.

You don't have to be a monster-rack to make these dumplings turn out perfectly. The secret is in the recipe, and even a bride may follow

those directions and with compliments for dumplings as good as any mother used to make! Try them on the family, and remember the one general rule for cooking: If your stew is very liquid, remove some of the liquid (skipping it had) before cooking the dumplings. Your stew should be "soupy" enough to keep

Given Dumplings

- 1 1/2 cups flour
- 1 tablespoon salt
- 1 tablespoon baking powder
- 1 egg
- 1 tablespoon melted shortening
- 1/2 cup AU-Bran
- 1/2 cup milk

beat 1/2 c. milk and baking powder together. Beat egg until light; add melted and cooled shortening, All-Bran and milk. Add liquid mixture to sifted dry ingredients and stir only until flour disappears. Drop batter by heaping teaspoonsful on top of hot meat stew, cover lightly and let simmer for 20 minutes without removing cover. Serve hot. Yield: 8 dumplings.

CHUPIN BEAN CAKE

- 1/2 cup shortening
- 1/2 cup white sugar
- 1 egg, well beaten
- 1 cup Green Bean Casserole

- 1 teaspoon vanilla
- 2 cups pastry flour
- 1/2 teaspoon salt
- 1 1/2 teaspoons baking powder
- 1/4 teaspoon baking soda
- 1/2 cup milk
- 1/2 cup chopped nuts
- 1/2 cup seedless raisins, col. flou

Method: Cream shortening and sugar until light, and well-beaten egg, corn syrup and vanilla, blend thoroughly. Add sifted dry ingredients alternately with milk. Add nuts and raisins. Pour into pan 8" x 12" lined with waxed paper and baked with Maida. Bake in moderate oven. Temperature: 350 degrees F. Time: 45 minutes.

A sorrowful widow having a memorial created in memory of her late husband had the following inscription carved upon it.
Goodbye, Henry, my light has gone out.

Three months later when she remembered some all added to the inscription.

But I have struck another match.

The meeting programme was tied up here for over two hours as a result of a fire which occurred at the Carstairs meeting.

The new work in Carstairs is seeing completion and is a big improvement over the old one which it is replacing.

New War Loan Will Be Launched Soon

Early in June, Canadians will be asked to subscribe to a new War Loan, similar to the Victory Loan of the last war.

Organized men will be out in every community and a nationwide campaign conducted to induce the public to support this new loan. It will provide those having surplus funds an excellent opportunity to invest their funds and at the same time help Canada to finance our gigantic war expenditure.

The amount of the loan and other details are expected to be made public within a few days.

Picture Show Saturday

Paul Mend will be seen in the 24th century Fox triumph "Hudson's Bay", the picture which is coming to the hall on Saturday. There will also be the usual news and comedy.

Matthew Day will be shown on Sunday May 10th.

Mildred Donnelly is among the graduating class of nurses from the General Hospital this week.

Due to lack of support, the Victory Wheel will be discontinued.

More Blankets Needed for British Bombed

Another appeal has been made by the Red Cross for quilts and blankets for the bombed people of Britain, as well as for clothing.

In order to answer this call, the local branch of the Red Cross is appealing to all ladies in the district to come out and help with the quilting and sewing. It is hoped that with sheep shearing time near, a number of fleeces of wool for quilts will be donated by sheep breeders in this district.

Seeding Progressing

The weather has been warm, with no rain the past week and the top soil in many places is drying out badly. Seeding has been going ahead rapidly and many farmers are now finished seeding wheat. Others are waiting for a little rain and will wait to grow, so that they can run over their land once more to kill them before seeding.

Miss Ruth Hestrop and Gordon Pyles are home from Variety where they attended the past week.

Ronald Jones who was on a two week leave, returned to Edmonton last Tuesday.

Decrease Registration Open to May 31st

So many people were reminded over the advertising of the date of registration of savings to May 1st, that the government decided to allow the period to stand, but request that farmers register as early as possible. It will be possible, therefore, to register any time up to May 31st at the City Town of your municipality. It had been announced in last week's paper that forms could be filled out at either the post hall or in Carstairs hall on Sunday, Monday, Tuesday and Wednesday of this week, because of the short time available. In view of this, and in spite of the fact that the date was again extended, the town halls were reported and quite a number of forms completed. This not only saved completion at the office of the City Town, but saved many a trip to Crossman or the Post Hall. If farmers over the district had done what others in the same ratio as those who filled out forms here this week, it is expected that the reduction will be in the neighborhood of the one third asked by the government.

Mrs. A.M. Lorne was a Calgary visitor this week.

HAVE

You

PLEDGED ALL YOU CAN TO BUY

WAR SAVINGS CERTIFICATES

regularly?

YOU KNOW that Canada's War Effort requires a steady flow of money—week by week, month by month—furnished from the savings of her people.

IF YOU HAVEN'T pledged yourself

—ACT NOW! Canada needs ALL you can give and lend. There are three ways to pledge:

1. Ask your employer to deduct a specified sum from your salary or wages each pay day.
2. Authorize your bank to deduct a specified sum from your savings account.
3. Sign up "Savings Plan" to buy Savings or Certificates for a specified amount at regular intervals.

IF YOU HAVE pledged yourself

—keep up your pledge. See your investment grow as the months go by. INCREASE the amount you have promised to save and invest. And remember that, in addition to your regular pledged amount, you can at any time buy extra War Savings Certificates from your local Bank—Post Office—or you can send your money direct to the War Savings Committee in Ottawa.

"BLOOD...TOIL... TEARS and SWEAT"

This is a war for existence. It is war to the death. It is a war to win or to lose. There can be no half way—no compromise. It is a war to WIN. Money is the fourth arm of the service. Whatever you are called on to pay or to lend, it is little compared to the lives that our men offer.

There have been many and heavy calls upon Canada already. There will be more.

Let us face the truth and the truth will make us free.

It is freedom we are fighting for, British freedom, the freedom of body and spirit that makes life worth living.

If we fail, we fall.

Be prepared for service.

Great Britain has set us an example on a scale of heroic magnificence history never's record.

Let us FIGHT!

Canada has the resources. Let us spare nothing. When our soldiers offer their lives, let us be willing to share our livelihood.

Presently the Government of Canada will call for money.

The money is here.

We are spending billions. We are already heavily taxed. But most of these billions and these taxes are being spent in Canada. That money comes back to you. Keep it rolling. Keep putting it back into the war effort, so that it may be spent again and again and again until light prevails and the world is free.

FIGHT...WORK...PAY

Canada must be Free

New Recreation Hut

Opened at Brighton St. 21 Nov. 11
The new recreation hut, opened at Brighton St. 21 Nov. 11, is a fine example of modern architecture. It is a two-story building with a large hall and several smaller rooms. The building is made of brick and has a flat roof. It is a very nice building and is a great addition to the city.

During the last winter, the city had a recreation hut. It was a small building with a few rooms. It was not very nice and it was not very big. The new recreation hut is much better. It is a large building with many rooms. It is a very nice building and it is a great addition to the city.

More About Sports Day

(continued from page 1)

"Torch" will receive the signature of hundreds of members of local organizations. The public are invited to join in this short program.

Immediately following this the parade will lead the procession to the huge bonfire, which will be lighted opposite Hotel at 9:30. This bonfire is one of a chain which extends across Canada will light on Victory Five.

As a final wind-up to the big day Ken Moore and his band will supply music for the dance in the hall, under supervision of C.M.

As this is a patriotic celebration all are asked to decorate their stores and homes with flags and bunting. This is a special request from the committee and your co-operation is urged. Also it has been asked that all who will, should decorate their cars and join in the parade with the army unit and veterans at 10 o'clock.

Join in our day. Let's all work to make it a credit to our district.

NOTES

During the month of June, commencing Friday the 4th June, the Secretary of the M.D. Council No. 250 shall be in the office at the Town Hall, Cambiston from 10 a.m. to 3 p.m. for the collection of tax arrears, prior to adding the last July penalties for non-payment.

The Wonderful Short Pull

"Oh, waiter, I have only one piece of steak today instead of my usual two."

"Pardon me, sir, the cook forgot to cut it in half."

Film Magazine—How did the new pictures turn out?

Not so well, replied his companion. I'm afraid it's only coming.

Customer (with old painting) I want this picture scraped off to see if by any chance there's an old master underneath.

Art Dealer: I think so, or can do that for you.

Customer: But if there isn't, I want the old one put back.

Two workmen met in Paris and discussed the city's employment problem.

Have you a good situation? asked one.

Oh, I have an excellent job here, was the reply. I sit on top of the Eiffel Tower and watch for the English to wave the white flag.

And the pay—is it good?

No, admitted the other, but it's the job for life.

For most of the small-voiced, tentative-like outburst of a new sound should go at least 100 feet.

With larger seeds like spinach and peas no reason to do that.

No, admitted the other, but it's the job for life.

The speaker made it go for miles.

After returning from a twenty-mile hike, the officer in command of a night company said before dismounting his men.

All men who are too tired to take another hike, step forward two paces.

The entire company stepped forward except one big, husky, six-footer. Naming him the officer said:

Well, Johnson, ready for ten miles more?

No, said Johnson. Al'm just too tired to even take ten more steps.

Everyone has been worrying about the contents of the letter Rudolf Hess left in Hitler.

Worry no more for here it is. You take the low road, and I'll take the high road.

And I'll get to Scotland before you.

Jack Bean—Mamma, tell me, where did I come from?

Mamma Bean—Hush, dear, the table brought you.

For Joint Defence

ALTA. (Can. Press)—The Canadian government has announced that it has agreed to a joint defence arrangement with the United States. The agreement provides for the sharing of military information and the coordination of military operations between the two countries.

The agreement is a significant step in the development of a closer relationship between Canada and the United States. It will help to ensure that the two countries are able to respond effectively to any threat to their common security.

The agreement also provides for the sharing of military information between the two countries. This will help to ensure that both countries are kept up to date on any developments in the field of military technology.

The agreement is a testament to the strength of the friendship between Canada and the United States. It will help to ensure that the two countries are able to stand together in the face of any challenge.

our way of life!

DOWN THROUGH THE AGES
Believe fought and suffered and died in order that their children and their children's children might be free. Today the forces of darkness threaten to engulf us once more. Shall we give up these rights which our forefathers won?

Today our country must win. No time can be lost. We must build the greatest war machine the world has ever known. We must accomplish in two years more than the enemy has accomplished in seven.

That is why Canada needs your savings—not a cent, but only as a loan. Canada's army must be maintained and equipped with the most modern fighting machines. Tons of weapons and munitions must be built. Thousands of planes, thousands of ships must be rushed to the front of conflict.

So Canada needs the use of your money now. Lend us, Canada will repay you in full. In the meantime, you will receive regular interest on your loan.

When you buy Victory Bonds, All Canada is your country. These Bonds are made really cannot lose cash when you sell.

HOW TO BUY—Give your order to the customer who sells you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Committee. Bonds may be bought in denominations of \$10, \$100, \$500, \$1,000 and \$5,000. Commence, bank, trust company or your local Victory Loan Committee will be glad to give you every assistance in making out your order form.

Steady Stream of Recruits Required

In the current recruiting drive, actually achieving a steady stream with the goal for the next year of ten thousand fresh recruits, the Dominions have a considerable task. They are going through the various processes of de-mobilization and medical examination.

While until the Army is not inactive fighting, the need for continuous reinforcements is urgent to fulfill the Dominion's pledge to good orders during this year, not only a Third Division but also an Army Tank Brigade, a complete Armoured Division and additional

at Camp Tocco. Rejuvenated, they also modeled themselves on Bill Bruck's ranch, where men are discharged for no reason or other, without an interview in Canada for fear of various no-fly lists.

The Canadian Corps in England now is in first rate fighting condition, ready to be kept at it. Although the Canadian tank units received heavy losses in the battle of Arras, they were not as badly damaged as the British tanks, and the formation of various new tank units has been decided by the Canadian Government. The Canadian tank units are now being trained in England at all times. This requires a steady stream of recruits pouring into the Army in Canada.

HELP TO KEEP THE "FRONT LINE" AWAY FROM YOUR DOORSTEP

Urge Your Menfolk to Buy Victory Bonds NOW

You can no longer depend upon the Atlantic Ocean for protection. Any day between breakfast time and noon, a bombing plane can fly from Greenland to our own Maritimes and Quebec—mere matter of 5 hours; so it is going to take less than 9 hours, on Vancouver in 12 1/2 hours. From German-occupied France, Bombardier planes can carry destruction to Toronto, Niagara, Ottawa and Montreal in less than 10 hours. Night and day, in the British Isles and on the sea, the sea and out of uniform, men defend your home from attack as surely as though they stood and fought at your own doorstep. Will you help to supply them with needs to carry on the fight—war fight? Will you help to make certain that there shall never be an "occupied" Canada?

Your Government needs some of your savings to buy more ships, planes and tanks—machines of war that will carry the brunt of our men to their homes, insure our way of life. Lend your money by buying Victory Bonds NOW!

The money you invest in Victory Bonds will come back to you with interest. Lend your money. We must win this war. Lend us to preserve the things that money cannot buy. Urge your menfolk to protect your home by investing in Victory Bonds now. All that you hold dear is threatened.

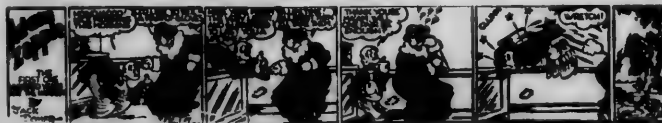

HOW TO BUY

Give your order to the merchant who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Office. Remember to keep it in the hands of \$50, \$100, \$500, \$1000 and larger. Complete book, trust company or your local Victory Loan Office. The money will be paid to you every month in making out your order book.

The W.M.S. of the United Church will hold a social at the Blue Ribbon Café on Friday afternoon, July 10th. Invitations, which will be served out by a ladies' committee, is extended to the public to attend.

Carstairs school district is celebrating for two hundred years from 1841 to 1941. The occasion is being celebrated by the inauguration of Miss Macdonald, and W.P. Macdonald. Mr. Macdonald has received a grant from the Department of Education.

Obituaries

This district was shocked by news of the sudden death of Mrs. (Annie) Hestrop in Calgary last Sunday. She had been in hospital only a week; her condition was not believed to be serious.

Mrs. Hestrop was 80 years old and resided at Hestrop, near, later moving to Hestrop. She came to Carstairs five years ago and had been an active member in the church and Red Cross work.

Surviving are her husband Ormond Hestrop and two daughters, Ruth and Lila, of Carstairs, and two sons, Dr. O. Hestrop of Edmonton and Ormond in Montreal. Funeral services will be held from the Foster and Foster chapel in Calgary on Thursday afternoon at 2 o'clock, with Rev. G.G. Pyles officiating. Interment will be in Burnside cemetery.

Army Mail Should Be Fully Addressed

The incomplete addressing of mail intended for soldiers at training centres in Canada is the cause of numerous delays in delivery. Honorable William F. McIntosh, K.C. Postmaster General, to advise this situation, again requests the public in writing on the back of the envelope to fill in the correct and complete address on all military mail.

Mail for Delivery in Canada should be addressed with the usual complete particulars—Regiment, Battalion, Rank and Name and details of Unit (in, Company or Section, Squadron, Battery, Holding Unit, etc.) and name of Regiment or branch of the service in full, and the Name of the Post Office where the Soldier's unit is located.

Mail for Delivery Overseas should be addressed with the usual complete particulars—Regiment, Battalion, Rank and Name and details of Unit (in, Company or Section, Squadron, Battery, Holding Unit, etc.) Name of Regiment or branch of the service in full, and the name of the Commanding Officer Overseas, but no place-name should be given.

All letters should be fully post-paid, and a return address should be given in the upper left-hand corner.

All men interested in joining the Calgary Regiment Tank Corps, which is starting in Carstairs this month, should call at the Recruiting Office at 7:30 on Tuesday, July 2nd. Officers from Calgary will be present to answer all questions. Men are welcome.

Frank Trish has returned from his daughter, Mrs. Young who operates a taxi-cab at Fort Lethbridge. He and his wife, Mary, who came over, and his wife, have been making her and his trip to that vicinity.

Announced Green Spot—On the 10th instant, the Green Spot, 1 lb. tin, 10c. Aunt Mary's Omelette 1 lb. tin, 10c. Quaker Oats 1 lb. tin, 10c. Red and White Baking Powder 1 lb. tin, 10c.

Mr. Macdonald has been named to the position of Postmaster of the R.C. in Carstairs.

Marrriages

The chapel of St. John's Catholic church was the scene of a wedding recently when Doris Peniston (nee) second daughter of Mr. and Mrs. William A. Pryor, became the bride of David (Duff) Macdonald, son of Mr. and Mrs. D. Macdonald of Carstairs. The ceremony was performed by the Rev. Canon A. A. Macdonald.

The bride was given in marriage by her father. She carried the bride by her sister Mrs. Patricia Pryor.

The bride was charming in a floor-length gown of white and carried a bouquet of white roses, with white gossamer, with chapel veil and white gloves.

The bride was escorted by her father, who carried her down the aisle. The bride was given in marriage by her father. She carried the bride by her sister Mrs. Patricia Pryor.

IT'S TIME TO TRY BIG BEN

THAT'S MY CHIEF

Is It Enough?

In the daily press from the plain to the air through government pamphlets Canadians are now required daily to learn lessons of relative deficiency in various forms of different values and the accomplishments of the Canadian war effort covering ten months of the greatest fight in the history of the world.

How much more there can be had a bulletin issued by the Director of Public Information in Ottawa, dated June 10, 1918. "It is significant," states a preliminary note, "to serve as a source of material for speakers and writers who are to be heard in the future, and to show a picture of what it will be served monthly and will contain the most recent available facts and figures."

Nothing with all respect of the Canadian war effort, including contributions which have been made in the past, material and resources the efforts being made by Canadians in the theatre of war as well as on the home front. The list of military organizations, departments and boards, the booklet affords a valuable, yet complete compilation of information on the Canadian war achievement to date.

Although apparently designed principally as a handbook for speakers and possible writers, it is a booklet designed for the general public. Here is a fact that the information it contains may be required in accurate and the data can be used as a basis for writing on completely new field of being concerned in this position.

This letter is highly suggestive of the Canadian war effort, in fact, the booklet contains hard facts which verily cannot be questioned. Every Canadian citizen who is not in the habit of reading the paper, or who is in this country playing an important role, is dependent on news before that the people he goes straight back to the booklet. It is a booklet of sound evidence for the Canadian war effort, and it is a booklet which can be used as a basis for writing on completely new field of being concerned in this position.

Domestic Information

There can be no gaining the situation that Canada entered into the war relatively unprepared with a comparatively weak military establishment and no industrial plant required to war requirements. Since that time great changes have taken place and much has been accomplished in preparing the country as we can take and in moving the requirements for the war from the outside to the inside of the country.

There is a large number of Canadian war effort, for instance, that the "New Outlook" of the war Canada has developed an ever-increasing number of war requirements. The booklet contains a list of the war effort, for instance, that the "New Outlook" of the war Canada has developed an ever-increasing number of war requirements.

The Weekly Special Deal

The powerful wind-filled ships and their crews on the River bridge near Annapolis, forcing suspension of traffic on the spot for what is expected to be several days.

My good woman, said the learned judge. You must give an answer to the lowest possible words of which you are capable in the plain and simple question whether when you were crossing the street with the lady on your arm and the bus was coming down on the right side and the taxi on the left and the motorcycle was trying to pass the bus, you saw the plaintiff between the motorcycle and the taxi, or whether, and when you saw him at all, and whether or not he was the motorcycle, taxi and bus, or either, or any two, and which of them respectively or how it was.

The Irishman was relating his adventures in the jungle. Ammunition, fuel and whiskey had run out, he said, and he was garbled with food.

But wasn't there any water? Sure, but it was no time to be thinking of cleanliness.

Captain—If any thing moves, you about.
Sentry—You sir. And if anything shows, I move.

Org—Does Joe come into your place often?
Barstender—Yes, he's one of my regular customers.

Women's fashions are many. Men have only two; Everything they do, And everything they do.

YOU ARE AWAY AHEAD IF YOU JOIN UP NOW

The issue between army and civil life is not "What are you going to lose by joining up?"—IT IS WHAT YOU ARE GOING TO LOSE IF YOU DON'T!

After the war is over, commerce and industry will need and prefer highly trained and skilled men—men with initiative to cope with every emergency—quick-thinking, quick-acting men... the kind that only the army can make and send.

How are you going to stand up against the experience and efficiency of these men when they take their place in civil life?

This is the issue that faces you now! Act at Once! BE A SOLDIER NOW A MAN AMONG MEN WHEN IT IS OVER!

**"Imagine it taking a
war to set us right"**

Woman: There's one thing we can thank Hitler for.

Man: He's got us saving at last.

Woman: "You! Imagine! I'll be a heroine a positive
duty we certainly never managed to put anything
by each week."

Man: "I think it's partly because those War Savings
Certificates are so simple to buy."

Woman: "You mean the idea of getting the offer to
deduct a regular amount each week from your salary?"

Man: "Yes! And how they're mounting up! Quite
a nest-egg when you count the interest they're earning."

Woman: "Well the more the merrier, I say! There are
lots of things we'll need the money for, so the
more we buy!"

The help of every Canadian is needed for Victory. In these days
of war the individual citizen's contribution is a tribute to our war effort.
A reduction in personal spending is now a vital necessity to re-
duce the pressure for war, to enable more and more labour and
materials to be directed to winning the war. The efficient offer,
which Canada must make, demands this self-denial of each of us.

—TO PAY YOUR 1941—

Income Tax

on the Government Monthly Plan

You must start at once!

Next Tuesday a 11th be the last opportunity to pay your
1941 Income Tax on the Government Monthly Plan. This
gives you the privilege of paying in twelve months in-
stead of one lump sum in March 1942.

Here is how to get the monthly payment privilege: Divide
the total of your 1941 Income Tax by twelve. This is your
first payment and must be paid in the first month in-
stead of before September 30, 1941. You will then pay the same
amount before the end of each month for the balance of
1941. When you have estimated your 1942 income tax at the
1941 rate, you will deduct the four payments you will have
already made, and pay the remainder in eight equal
monthly installments, starting January, 1942.

The Government offers the above plan as the most reason-
able and convenient method of meeting income tax obli-
gations. Ask your local Income Tax Office for installment

Spoke For His Rival

**Arner Had New Way Of Proceeding
Against Interruption**

John Kemble, who is performing at the New Theatre, 2100 Broadway, last night, had a new way of proceeding against interruption. When a child began crying on the stage, he stopped the play and held the child in his arms until at length the mother stopped the crying of her child. When the performance Kemble walked to the balcony step in the front of the stage, and addressing the audience, he said: "If you have a child on the stage and the child begins to cry, stop the play. If you do not stop the play, the child cannot possibly be heard."

PUT THESE WAR WEAPONS INTO ACTION

SUPPORT THE WAR WEAPONS DRIVE IN OUR COMMUNITY

Our fighting men need the weapons of war—need them at once. They must be provided. It is our responsibility. War Savings Certificates are within the reach of all. More regular purchases of War Savings Certificates means more war weapons for our forces. Push their sale wherever and whenever you can. Don't wish for a short war—get busy and shorten it.

V . . .

One building here is plenty old. How do you know? A little hand and one little hand. Here, over the hill.

First goal—Do you still play on your boy friends' mud? Second goal—Do you still play on your boy friends' mud? Third goal—Do you still play on your boy friends' mud?

Not—Was I now when the mayor tried to put a medal on my chest after I saved that girl from drowning?

Ted—Why should that make you sure?

Red—Well, I was waiting until the truck.

He (former member) I want to make my living making money out of this war.

Doesn't that make you feel that?

It doesn't necessarily follow—What does?

A che, where you, where for?

Che, it takes two to make a tourist.

Yes, my dear, it takes four to play bridge.

Arthur—Frank? Why don't you let me take a question?

Arthur—But darling you know I don't do that.

Mr. Brown is ready to have her husband get an airplane. What for?

We want one to look over on the neighbors. I suppose.

Ten—Now, if I lay five eggs here and three eggs there, how many will I have altogether?

Twenty—I don't think you can do it.

Nothing is so important as a motor car in a remote or isolated corner of the war.

Mrs. Brown—Do you have where little things go when they are on the wall?

Only—Don't follow me as I'm going.

Foggy—By little sister are you a chicken puffer?

Chicken—Disagree?

Foggy—No, she's very shy.

Charlie never makes his bed to help.

Be answer.

Be said.

Everyone knows that four one dollar bills
don't usually add up to five . . . BUT, the
WAR SAVINGS certificate which costs you
four dollars makes this kind of arithmetic
survive time.

Yes, and every four dollars you send to
Ottawa actually gets behind a gun and
ammunition. It buys vital war equipment of
many sorts. It helps shorten the war.

After this war, you get FIVE DOLLARS,
not four dollars. Thus right now, your sav-
ings are helping to win and they're helping
to build a new edg for yourself.

Sailors Transferred

Four of the local boys who have been receiving naval training in Calgary the past couple of months, have been transferred for further instruction. George Edmondson and Kenneth Wright have been sent to the Pacific coast. Fred Hobbie and Allen Wilson in Toronto. The boys left the first of the week for their new stations.

Miss Beulah Richardson entertained a number of friends, at a shower on Monday evening, in honor of Mrs. K. Gule (nee Edith Hobbie).

Mrs. A. Leeson was calling on friends in town today before returning to Drumheller.

Mrs. Price and Lloyd were back and visitors at the Ashlin home.

Baby Show Will be Held This Saturday

Patrons and more patrons have been coming in for the baby show presented by the Baby Show, Baby Show, which appeared by the Victory Book Club.

What until you see the beautiful array of what all babies in all classes will have a chance to see.

Lane Tabor will be present to give a demonstration on how to have a baby.

It won't be long just "Come along and see" and see the finest group of babies.

Dr. McPherson will be there to answer any questions on babies.

We'll be seeing you Saturday The draw will be made at 3 p.m. Remember all proceeds are for the Queen's Canadian Fund.

T.P.S. Notes

The Young People's Society of the United Church will give an evening meeting on Wednesday night. After a short worship period led by Misses Wagon, Betty Sprague and Marion provided an interesting program, including singing to play for the first time. The meeting closed with the usual business meeting, led by the president, Miss Phyllis Gordon.

Health And War

Beyond the factories where we are working and striving, there is the home of the soldier. And it is to be a great world, a new world, a world in which we shall be able to live in peace and harmony. The soldier is the backbone of the nation, and his health is the lifeblood of the nation. We must therefore do all in our power to keep him healthy and strong. This is the duty of the nation, and it is the duty of every citizen to do his part. We must therefore do all in our power to keep him healthy and strong. This is the duty of the nation, and it is the duty of every citizen to do his part.

Health Delivered

Both in Canada and the United States, countries where the standard of living is generally considered to be good, we are applying the theories and the practice of the health of the soldier. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before.

Disinfectants

The minimum equipment for disinfectants for use in the form of what is known as the "disinfectant" is a very important part of the health of the soldier. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before.

A Good Practice

Members of good practice groups are doing a very important part of the health of the soldier. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before.

How Canada Plans

Members of good practice groups are doing a very important part of the health of the soldier. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before.

Can Plan Health

Members of good practice groups are doing a very important part of the health of the soldier. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. We are doing this in a way that is new and different from anything that has been done before. A black and white photograph showing a large crowd of people gathered on a riverbank. They are looking across the water towards a distant shoreline. The scene is dimly lit, suggesting dusk or dawn. The people are silhouetted against the lighter background of the water and the distant shore. The crowd is dense, and many people are standing with their backs to the camera, looking out over the river. The water is calm, and the distant shore is visible on the horizon. The overall mood is one of anticipation and hope.

Any casual visitor to Japan knows that many are the Japanese homes in Tokyo, the capital, with a population of 5,100,000, covers an area of about 22 square miles, of which the Marunouchi district-Tokyo's business area consists of only about 10 square miles. With the exception of this small area in the centre of the capital where are located the railway station, the banks and the principal business offices, the city is made up of the average Japanese home built with a wooden, frequently covered with a thatch of straws, with paper sliding

The same is true of an even greater extent of the other large Japanese cities such as Osaka, the great industrial center Kyoto and Yokohama, where there are comparatively few fireproof buildings. Recognized danger to these cities is of course from fire and the threat constantly exists of large conflagrations. A very large

There are two problems with the model today that will make it difficult to solve. First, the model is too small. The Japanese government has a very small market, and the Japanese government has a very small market. How Rent Control Affects You

as a landlord as a tenant

As a part of the annual plan to halt further increases in the Cost of Living, the Government on December 1, 1941, extended the policy of the Price Ceiling to include the commercial and business communities in Canada.

Continuing the year round low rental has possible effect.

(1) As a landlord, you may be required to reduce your rental if you are not permitted to increase it.

(2) As a tenant, you may be required to pay a higher rent if you are not permitted to reduce it.

LET'S KEEP OUR CANADA *a happy land for them*

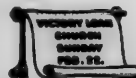

Pony-worth muzzles; a button of a nose; wee, slender fingers clenching at your covert—what kind of a world is this in which you will awake?

Your life, we hope, will be rich in love and laughter. God forbid that your Canada should ever come under the hand of a ruthless barbarian, whose babies are born to bar the future shock troops, or the moans of a brutal, military race.

We promise that you shall inherit a Canada blessed with the liberty our fathers bequeathed us. You shall be free as we are free.

So we gladly lend our money to our country in this crisis. We will buy Victory Bonds to the very limit. We must and we will make sure that the threat of a brutal way of life is banished forever.

HOW TO BUY—Give your order to the Liberator's Commission who will fill you the place it is in the hands of any branch of any bank or grow it to any other company. Or send it to your local Victory Bonds Headquarters. Or you can authorize your bank to send a regular payment. Or you can place the your bonds up for longest accumulation of \$10, \$20, \$50, \$100 and longer. However, bank, trust company or your local Victory Bonds Headquarters will be glad to give you every assistance in making out your order form.

Romantic Story of Patriot Who Sacrificed His Life in Defence Of The Empire

The Romance of Queensland Australia, has definitely proved the death is a glorious one. The Australian Ancestral Wreath D.D.O. has been with them in the light recently, according to the records of the Empire.

It is a story which is so romantic, yet the legal suit on record of a soldier, dead before his time, who was killed in 1912, is a story of a man who died for his country.

New or Additional COST OF LIVING BONUS Prohibited Without Permission

Order of National War Labour Board to Employers and Employees:

An employer who was not paying his employees a cost of living bonus prior to February 15, 1942, may not start to pay such a bonus on or after that date, nor may an employer who has been paying such a bonus now increase it unless he has specific permission from a War Labour Board.

Whether in the future a bonus may be paid or changed in amount will depend on the National War Labour Board's announcement in May 1942, with respect to any change in the cost of living index between October 1941, and April 1942, unless in a particular case a War Labour Board has given specific permission to do otherwise.

OUR TOWN IS AT WAR

● Men have gone to war from our town . .
our men . . men we call by their first name.
Some quit good jobs to go . . some quit
school. WHEN THE EMPIRE WENT TO
WAR THIS TOWN WENT TO WAR. Are
those of us who haven't joined up doing all
we can? Are we lending all we can to keep
our townsmen . . our boys equipped with
the proper machines of war? LET NO
BRAVE BOY DIE BECAUSE YOU FAL-
TERED!

Settle East Russia

Re-establishing For Post War Conditions
 From By Miss Hildreth.
 Soviet Russia is preparing to settle East Russia which will be the end of a second time in Russian history.

That is the story of the settlement of the eastern part of Russia. It is the story of the settlement of the eastern part of Russia. It is the story of the settlement of the eastern part of Russia.

The Russian re-establishment is not to be compared to the mass of population which came out of the East to Russia, particularly among the Jews and Poles. In the latter case millions were sent to the East, Russia and America, stripped of their possessions and money and landed there as poor men.

The Russians will be given land and material to build permanent homes. They will be free to choose from the new territory of settlement being set up west of the Urals and in Siberia.

The region of the new settlement is to be spread over a vast territory which is to be under way. Russia has been the object of interest from the West and the threat to the East has been the object of interest from the East. The Russian re-establishment is not to be compared to the mass of population which came out of the East to Russia, particularly among the Jews and Poles.

In the course of the Russian re-establishment, vast quantities of money and industrial equipment were moved to the East, along with the men and women who operate them. Ships and the rest of the world moved about the world, re-establishing the East. The East is the East, the East is the East, the East is the East.

In the East, the East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East.

The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East.

The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East.

The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East.

The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East.

The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East.

The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East.

The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East. The East is the East, the East is the East, the East is the East.

With The Book Club
The Victory Book Club celebrates the 10th anniversary of its formation. It is the form of a book club. (We mean you, the form of a book club.)
Giving membership to the club means that you have made your own choice of books to read. It is a little more to the book club than a book club.
Ready? You know what it is. Well, you won't know where you got it.
In addition to the club, you can also get a book club. It is a little more to the book club than a book club.
A big thing about the book club is that you can get a book club. It is a little more to the book club than a book club.

Call Of Category "B" Men May Be Resumed

When under the National Health Service Mechanism, it may be assumed it is under Good here.

For the past few years, integrated health care has been called for by policy makers, business and educational leaders, and even the public. The idea is to provide a more integrated health care system, one that is more efficient and effective. The idea is to provide a more integrated health care system, one that is more efficient and effective. The Weatherman's Forecast

V
If you don't take the weather into account Monday, don't expect the government otherwise.

Waterloo was not quite clear. One day she was wearing a suit and the neighbor saw her in a park. She was wearing the suit a long time while the neighbor said, "Don't you like people? You could take the three year old child! Do I have to see the child on it?"

Don't talk. Why is that a girl can never catch a ball in a net? He says, "Don't you know that it is easier to catch a ball than it is to catch a girl?"

If I'm thinking of getting married that do I'm that of it this - I think it's wonderful if you can see.

When you help a girl to get into a car, you are not a good man for two reasons of peace and I just only a good and a half. You are not a good man for two reasons of peace and I just only a good and a half. You are not a good man for two reasons of peace and I just only a good and a half.

Front teeth - My teeth are all gone. (He says) You might get your teeth back.

How the greatest girl in the world is like to make herself popular and generally popular. No. Three could not be in a class in that.

First day - My boy takes the great pleasure out of everything. Second day - (He says) a pleasure.

First day - (He says) a pleasure.

And then there is the next day the father who asked up a theatre and ordered a lot for free. We haven't any of the new material and haven't any more.

Recently the post office delivered to him had been contacted with an understanding partner.

And how in your house before asked Mrs. Nelson (He says) poor, replied Mrs. Nelson.

Do you get a newspaper delivered to your house? The father says he's got to be long in great paper.

Doctor - My dear sir, nothing has to be done. (He says) all right.

Doctor - What will it cost? (He says) about five hundred dollars.

Patience - But I hope only a hundred dollars.

Doctor - In that case, let's get your girl out of it.

Board of Trade Show Pupils Plant Tree in Drew Good Attendance

The hall was packed on Tuesday night for the showing of the Fair and Unions pictures and there is no doubt that both the show and address by Mr. Fisher were enjoyed by the pupils who were a better understanding of the value of wild birds and animals. As a tour of attraction alone they are most noble.

During the evening the draw for the weather was made and Miss Edith Wright, with ticket No. 156 was the winner.

Owing to the fact that the program was postponed, the business meeting of the Board of Trade was held on Saturday night.

The plan for the park development which was drawn up by Fred Pierst will be taken up at the June meeting. This plan, which is now on display at the Living Stone, is a real one and Fred Pierst is a real one and Fred Pierst is a real one.

It is proposed to break up a corner of the park and lay it out as a real beauty and recreation spot. The cost will be small if volunteer labor can be obtained and if the present enthusiasm can be maintained no should have a park in Carstairs which would be credit to a much larger town.

Pupils Plant Tree in Honor of Mr. Linsemer

On Monday afternoon (April Day) May 2nd, an old time was planned in the Carstairs school grounds by the pupils in memory of the late Mr. Linsemer.

The Memorial and Pinner family were the first from the best of graves at their home.

Rev. Pybus gave the speech of dedication. He spoke of Mr. Linsemer's long years of faithful service as a member of the school, and how fitting it was that a tree should be the memorial to one who had done so much to beautify the grounds, planting trees, shrubs, and flowers.

The ceremony was closed with the singing of "Abide With Me" by the school children.

A display of Red Cross knitting done by the girls of the Carstairs school, will be held in the Church Hall on Saturday, May 12th. Admission: The Tea will be served. Proceeds for the Red Cross.

**Young Trappist Monk Dared Escape
From His Aid British**

A young Trappist monk who for ten years lived in seclusion at the Mount St Bernard monastery in Leinster, England, is one of the heroes of the Libyan campaign.

Father Celestin Pline, chaplain with the field ambulance, was taken prisoner with other British troops by a German tank column. The monk escaped and, despite enemy fire, drove an army wagon across the desert to British headquarters.

His report resulted in British gun

"I think he will be all right," Forrester spoke encouragingly now. Randolph turned away toward the stairway again, to go and relieve Tamas. The little white, and although studied a course in home nursing at Shafter Seminary, he knew could hardly bear to see another pain.

"I'll give him something soon. I'll be in pain. Tamar, when he's out, but he's going to be all right in a few days. Just give him the pleasant Shadwell house, some rays of sunshine from the years and he will come nicely."

Tamar managed a weak smile. "We'll take good care of him. He needed to get out of doors and to the edge of the Chateaufort. Out another word she turned down the back stairs and she came down.

BRITISH TAKES ON WAY TO RUSSIA

These are just some of the hundreds of tanks produced during the recent
"Tank for Russia" drive. Workers received all records with their
efforts, and the complete tank output of Britain for one week has been set
at the value of Russia in one light armoured company. British soldiers
cleared their lines to allow for the rapid movement of these tanks, and
these Comanche Mark V tanks were photographed passing through a
British railway station en route to a port for shipment to the U.S.A.

They were used successfully in Libya and it was then that they made

The Future Of Canada

[illegible]

We Should Take Stock

Geographically speaking Canada is a wide domain, but it is unfortunately only sparsely populated. The density of population is estimated at not more than three people per square mile. BUT THE POPULATION IS NOT A MATTER OF COMPARISON. THE REASON IS THAT even the population is 25,758,780. In 1941 it is shown as 11,611,000, an increase which is less than one third of the two previous decennial periods. The reason is twofold. First, a factor while emigration to the United States and elsewhere has robbed Canada of many useful citizens. The so-called "Have Not" countries of Europe and Asia have long been casting covetous eyes on Canada, knowing full well our wealth of untapped natural resources, and the room for expansion. It would seem that the time is ripe for the people of Canada to take stock of their country, and to adopt measures to make better use of the territory which is ours.

During the greater part of the last decade Canada has been suffering its problems with most countries from the effects of the depression. The price of wheat, wool, and other agricultural products have been seriously depressed and unemployment has been a problem. With the impact of war the picture has been considerably changed, and it is generally believed that about the time that the war will be over the war has given an impetus to business, but it is found that we do not fabricate many articles that were heretofore imported. The war has also been the direct cause of the discovery of many minerals that formerly came from other countries. It is found that Canada is rich in minerals. It has been clearly shown that Canada has possibilities of expansion, and is greater than any other country. We have in our abundant natural resources everything that is necessary for the building of a great nation. We have the power to produce everything that we need. The advantage of the opportunity which now before us. We need to develop a national consciousness, we need to have confidence in the future of Canada, and to strive in every way to be worthy of our position as a great nation.

1. The first step is to identify the main topic of the document. This is often found in the title or the first few paragraphs.

I have heard a somewhat major being right only negligent. And I have heard the wrong being right only or almost right only. negligent at its worst. It is in the following poem:

At the moment I am a *tailor* over

I don't mean the kind of rib that
would come in very handy for a
member of one of our commands. I
mean the kind that will come in far
so handy as emergency landing

There is altogether too much of the
"It can't happen here" mentality

Why should a man who is too close to the fight, or a woman for that matter, turn up God's good air chasing a golf ball across fairways when a more open invitation to an *anytime* aircraft fly should yards and yards of elastic be wound around a wire to form a golf ball when rubber is so urgently needed to war production?

Now perhaps this is a going too far

At first bluish this sounds reasonable but let's take a second look. These little stores for years have catered us. If we wanted a bottle of pop, a package of cigarettes, a can of spaghetti or a pound of cheese or some other innumerable item, we would find it. It was sent to us. The thought is that item could not

How can we pay back. None of us has the money to give grants to see that type of store forced out of the wall. We are or should be grateful for the service it has given to encourage our laziness.

So what do we do? We do one of two things or both of them. We either, and this is the best solution, we go down to the store to get what we need or we suddenly need or we use our brains and think of ways, other than the store, to make the money that we need. In which event, we can take the store out of the picture.

Sixty years of faithful and valuable service to Canada's freight and passenger trains is being celebrated today by the Canadian Pacific Railway Company in Montreal.

On February 15, 1911, the commencement of the long and successful career of the company was granted a charter for the building of a private roadway of a railway to the Pacific coast. Two days later, the Canadian Pacific Railway Company was organized on an all-Canada basis and a new era of Canada's history had begun.

The Canada of 1911 was an unbroken wilderness, the country was

Car Owners Should Take Numbers of Tires

With the new restrictions on fire, imposed by the Western Princes and Trade Union, it has become necessary to take additional precautions against the theft of fire. Walter H. Campbell, British Representative of the House in Alberta, suggests that owners of gas-stoves take the numbers of their stoves for the record of the theft; this will be of great assistance in locating them and stopping "black market" dealings. There should be reported without delay to the nearest police authority and to the appropriate local newspaper in the event of a theft.

Winter's Coal Should Be Ordered Early

The raising that an oil will be available this coming fall and winter will be considerable stimulus to the real estate market. The rise it will mean an increased demand for America real in Chicago, N. Y. as well as in Kentucky and other parts where oil borers are at work. This will be a further stroke on the money to take care of these orders and also take care of their oil supply.

Guard Against Beef Shortages In The Future

In The Future

2. A strict organization with private cattle fairs, exporters, private slaughterhouses and research in the domestic markets.

3. Adjustments in culling policy, beef will be permitted given permission to seasonal variations in cattle prices.

The effect of the program, whereby

inter. Mr. Tolson said:

has reported while shipments to the United States under the quota system have been less than 100,000 head of beef and about 100,000 head of calves per month. Mr. Gordon and the plan were approved by the Canadian government and the U. S. Department of Agriculture. The plan calls for the export of beef and piglets the entire production of the export process is competitive.

Mr. Gordon said he expects to receive the export permit for the number of cattle which would be exported to the United States and the domestic market will be supplied with the surplus. The plan calls for the export of beef and piglets the entire production of the export process is competitive.

Chief cattle shipments to the United States are divided into quarterly quotas. The quarterly quota starting on April 1 was filled on May 1 and the next quota shipments will be filled on June 1.

The details of the agreement necessary to carry out the plan will take a few weeks, but immediate action will be taken to increase the exportation of the beef industry will give Mr. Gordon said.

The board had recognized from
onset of price control the necessity
of seasonal variations in the price
of certain agricultural products. It
was to be seasonally adjusted to

The necessity for such an action is to keep out of water and to encourage water drinkers. Rattle man was being requested to put up advertisements in various places to persuade throughout the 12- to 18-month period.

Mr Gordon said the plan was result of investigation and of discussion with D. H. Agricultural Department and representatives of farmers and the beef trade.

The new plan includes a number of rattle posts being the expense for cattle when they are returning to the United States and also a system of the collection of reports of rattle wherever changes in the domestic supply of cattle for export.

V . . .

Would your boy friend object if
 you went out with other fellows
 he wouldn't hear of such a thing

The salesman started to utter his
 magic words.

Don't bother, interrupted the
 stockbroker, I have no time to
 look at them

Well, please! the salesman, I
 won't take a minute.

He replied the other, I'm not to
 be troubled.

Well, would you mind if I spread
 them out and looked at the samples
 again? I haven't had a chance to
 see them for weeks.

English is a strange language,
 after all.

Why not?

I found a man talking of a pet
 tition candidate the other day.

If he only takes this stand when
 he runs, he'll have a walkover.

When curves become circles
 women are no longer attractive.

There's a young man in this
 street making a dinner of himself,
 and the professor, who has his fin-
 ished, I'll admit.

I understand that your sweetie
 is a typist. Does she use the touch
 system?

Well, you certainly don't think
 she bought that fat coat out of
 her salary.

Little fellow, our office boy,
 thinks a reference is just one of
 those people who are always try-
 ing to make the world a better
 place to live in.

A girl who insists that all men
 are alike either doesn't know any-
 thing about men or too much.

Women—Why, Doctor you told
 me to show my tongue, but you
 haven't even looked at it.

Doctor—No. It was only to
 keep you quiet while I wrote the
 prescription.

Friend Brown is an selfish in
 his pet bird who on the board
 fence to the sparrows can't sit
 down.

She—When I die you'll never
 find another woman like me.

He—Well, you can take it from
 I'm not going to try.

Have You The Cash To Pay For Next Winter's Coal Now?

**If not, discuss the question of
a personal loan for the purpose
with our nearest branch manager.**

Many patriotic citizens are buying next winter's coal now, following the suggestion of the Coal Administrator, who has urged early ordering of fuel because of the transportation difficulties with which Canada will be faced in the months ahead.

Delayed or reduced deliveries may occur if orders for coal are not placed in good time.

If you are without the ready cash, our personal loan service, available at any of our branches, may be of real help to you, and our local manager will welcome the opportunity of discussing your requirements in confidence.

Audacious Raids Made By British Troops In Libya

Like the scorpion which is the problem they carry a dangerous sting for their enemy. Sometimes they stand up on enemy soil before they perish or bring back some prisoners with them.

Always they are working hundreds of miles behind hostile lines with a hope of support from their own forces if something goes wrong.

They have no secret weapons.

They were regular users and rule in tracks not very often played.

Their weapons are speed, surprise and strong power.

They were organized in July 1941 after Italy's entrance into the war, made it imperative to know who was going on in Libya.

They contacted a "good source" to talk more about their work, which they call "studies" but which is one thing.

A long table piled up 20

came in the usual direct back door to fry about-up an A-22 on-camera and hang some primers. They drove badly down the main A-22 highway in Libya and found when they arrived that they were 30 miles off.

The headlights of an A-22 met a convoy which just had arrived brightly lighted the ramp's concrete aprons. Germans and Italians came around smoking and eating.

For four minutes, the two groups stared at each other, the French showed only mild curiosity. Then

A roaring gunshot lasted 20 seconds, sometimes with the men being swung away no farther from each other than 10 yards. Then the British volunteers pulled out. They had returned two prisoners, killed many of the enemy and destroyed some trust. The patrol suffered no losses, not even a wounded man.

"It was not so difficult as you might think," said the leader.

WAT BAYTON COAL

"If releasing of coal goes into effect in the United States on a credit transportation conditions, it surely be estimated here almost a certainty," Mr. Stewart said. "I have been trying to arouse the public and persuade them to get in the fuel supply early."

"In that case the form of releasing here would be practically parallel to the plan adopted in the United States," he said. "But in any case we will let the public know to

of time. There won't be any cutback rationing being announced on Tuesday and effective the next day.

Mr Stewart told the council that the issue of rationing "transports the expected pinch in transportation facilities this autumn."

"Summer traffic on railroads ways is less than winter traffic during this winter there will be a heavier demands on transportation facilities," he said. "September or possibly Sept. 15 is our best for rail transportation because

AGRICULTURE MARCHES WITH OUR ARMED FORCES

Behind the lines where men and women are risking life to defend home and country, other men and women are toiling to supply the materials of war—ships, planes, tanks, guns. These manufacturers—management and workmen alike—see their fighting shoulder to shoulder with our armed forces.

But what about the farmers? They are doing a work of equal importance. They too are marching to battle, by toiling early and late to persuade nature to increase food and other essential supplies on which the issues of the fight so greatly depend. The farmer marches side by side with the soldier and his armament.

Farmers who are doing their bit to help Canada's all-out war effort may find it necessary to borrow money at the Bank. You should not hesitate to discuss your requirements with our nearest branch manager. Your business will be regarded as strictly confidential.

Harvest Commences As Weather Clears

Clear, damp weather, with almost daily showers, has retarded the ripening of grain in this section of the province and has held up the harvesting. Some cutting has been done and as the weather would clear up much more crop is ready for the binder.

To date no frost damage has been reported, but many farmers have to cut grain a little on the green ends in order to lessen the danger from frost.

Today's show has cleared and the bright sun has given promise of more settled weather. Cutting is again under way and will be general as the weather trends clear.

Special Memorial Service Home Sunday

Great Britain declared war upon Germany on Sept. 3rd 1939, and to mark the third anniversary of this declaration of war, the Ministry of the King, has decreed that there be a special day of September 3rd, 1942, shall be observed as a day of Prayer and Dedication in the United Kingdom.

His Majesty has suggested to the Government of Canada and to the Government of the other members of the British Commonwealth of Nations that they might well consider the observance of a similar day throughout the Dominion.

His Majesty, on the advice of the Privy Council of Canada, has now set aside Sunday Sept. 14th, as a day of Prayer and Dedication. Canada declared war on Sept. 10th, and it is to be that the Sunday intervening between the third and the fourth would be the most suitable for the observance of this day in Canada.

Sunday, Sept. 14th will be observed in Carstairs at a special service to be held in the United Church at 7.30 p.m. when (continued on page 2)

GOVERNMENT INSURANCE
IN CASE OF
WAR DAMAGE TO PROPERTY

OWNERS OF PROPERTY ARE OBLIGED TO
INSURE AGAINST LOSS BY ENEMY ACTION

The Government of Canada, by Act of Parliament, has set up a Plan of War Risk Insurance designed to protect property owned by every

In some of general information, it may be stated that the *Plan* provides a certain limited **FIRE COMPENSATION** for damage to owner-occupied houses and to chattels, but the main feature of the *Plan* is that owners of most types of property can protect their property by **PAYMENT OF RETENTION PREMIUMS** **BEING MADE** **ON** **ANCE** at very moderate rates.

This type of *War Risk Insurance* is not being sold only by private insurance companies, because of the risk involved. Consequently, the Government has established a national office to make it possible for the owners of property in Canada to obtain this insurance. It is important to know that if his property does suffer any damage (and the war has been much closer to Canada in the last twelve months) he can call on the resources of Canada to help him make good his property loss.

Production Being Provided To Double Output In 4 Weeks

MONTREAL, May 28 (AP)—Canada's gun industry is now being pushed to speed up the production of 100,000 assault rifles and 200,000 handguns in 40 weeks, according to a new contract.

The contract, which was signed by the Department of Defense, calls for the production of 100,000 assault rifles and 200,000 handguns in 40 weeks, according to a new contract.

Price Ceiling Control Must Be Maintained

Be Maintained

It is a very common mistake to think that the only way to get a good education is to go to a good school. In fact, the best way to get a good education is to go to a good teacher. A good teacher is one who is passionate about their subject, who is able to communicate their knowledge in a clear and concise way, and who is able to inspire their students to learn. A good teacher is also one who is able to adapt their teaching to the needs of their students. If you are looking for a good teacher, look for someone who is passionate about their subject, who is able to communicate their knowledge in a clear and concise way, and who is able to inspire their students to learn.

"The threat of a disastrous slide back to an evil war as it ever was and the danger will be overpassed under conditions of war."

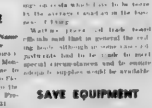

Any thought that Canada could retain control sufficient to prevent a runaway rise in the cost of living was based on fallacious premises.

The heavy taxation imposed in the 1942-43 budget coupled with the likelihood that the U.S. would enforce an over-all control of wages and farm prices bringing their price-cutting policy into harmony with that of Canada had given rise to surges of panic. Canada would be able to allow a breathing spell in its policy of price control.

"Nothing can be more dangerous,"

Without knowing it, Canada just a year ago began laying the foundations of the price-control legislation which has been effective since Dec. 1.

The price changes throughout the Dominion over the period Dec. 1 to Sept. 14 in 1941 are shown in the table.

Radioactive To Stay On Air

Radioactive—the world's largest independent network—will sign off the air at 11 p.m. local time in all regions beginning next Sunday.

This is announced by the CTR's general manager, Robert M. Mott, who says the network is being designed to be more self-sufficient.

Mott says that in a reshaping of its local operations in each time zone after the 11:00 p.m. sign-off, the network will be able to produce and broadcast some of its own programming.

He says that the network's 24-hour-a-day, five-days-a-week newscast will be produced by the CTR. These

Produce for Victory Save for Peace!

Canada is calling—not only for the utmost in farm produce, but for money to fight with. Make your contribution doubly effective. Produce to the limit. Buy Victory Bonds with the proceeds, to the last dollar you can spare. Your money will bring you interest, and will be available for new equipment, maintenance, and all those things you will need but which cannot be purchased until the war is won.

"VICTORY TICKETS"
Your local Victory Loan Sales Committee will explain the new way of subscribing for Victory Bonds, whereby you may purchase bonds in advance for a portion of your farm produce, only when they are marketed.

HOLD HIGH THE TORCH OF FREEDOM

A Fighting BIRTHDAY

OUR 125th ANNIVERSARY 1817 - 3rd NOVEMBER - 1943

Greatest deeds for humanity have brightened the years of the century and a quarter through which the Bank of Montreal has lived and thrived. Canada's deeds of valour and gallantry stand out as a beacon of courage, faith and achievement made by democratic, freedom-loving nations and people.

Canada, in the 125 years of the Bank's existence, has grown from a pioneer colony to a great nation standing in world-wide esteem and admiration.

From when Canada was still a wilderness, with furs and skins as a main source of wealth, we have grown to a nation of commerce, industry and progress. We have seen the growth of our cities, the development of our resources, the building of our nation.

As on our 125th Birthday, in 1943, we have seen Canada, together with our sister dominions and her allies, fighting with all her strength, her capability, her freedom and all her resources.

We re-affirm on our 125th Birthday all our traditional capacities, knowledge, industry and financial strength in the service of Canada and her citizens.

ALWAYS SERVING CANADA

When the Bank of Montreal began business on November 3, 1817, the only communications to Canada were provided by horse, stagecoach, and mail. These were the only means of communication, and the Bank of Montreal was the only financial institution in the country.

In 1943, the Bank of Montreal, together with our sister dominions and her allies, fighting with all her strength, her capability, her freedom and all her resources.

IN all history there is nothing so, compared with the inhuman cruelty now being practised by the Germans on millions of men and women throughout Europe, turning them to work in the fields, factories and mines of the Reich as slave. The Nazis are using force as a weapon, not as they are the bring about the concentration camps to have collaboration from the captive states of Europe. They need men and women to take the place of the millions now in their armed forces, particularly to make up the numerical losses created by the Russian campaign and the Allied bombing raids.

The cooperative movement is democracy in business. As it depends on human agencies to conduct it, it can never be perfect, but it is a long way ahead of the capital stock company and the modern trust companies.

Co-operation does not exist in law or in formula. It exists in the minds and hearts and purposes of the people. It is founded on mutual confidence and trust. With the development of these ideals people can make a success of co-operation.

The Alberta Wheat Pool is a creation of the farmers of this province. It has demonstrated its efficiency as a business organization and also its adherence to the co-operative principles. To make it a greater success than ever, it needs the interest and support of a greater number of the farm people of this province.

To A. R. Thoburn M.M. of the British Regiment, 123 Tenth Ave., Toronto, Ont. "To me and from home being headed out to the boys, it occurs to me to realize its importance in their lives. There is not a supply of money in army life. Their wives and children have to be fed. They are often hungry. Lots of letters from their others' letters. So you, whom they have looked in the home, when necessary they cherish, use to them their moments of happiness which you have given them."

Capt. Ronald E. Murray, 1000

and your parents

Did you ever hear of a man who had stolen all his life belongings and simply turned an object, and had no memory attached to it? If a man suddenly awakes, he has not remembered? Did you ever hear of a person who had been in a hospital and had no memory of what had happened to him? Did you ever hear of a man who had been in a hospital and had no memory of what had happened to him?

Mr. Dyer, 29-year-old leader of the Pacific Coast chapter of the Ku Klux Klan, was arrested on charges of kidnapping and murder. He was charged with the murder of a woman, approximately 25 years of age, who was found dead in a field near the city of Los Angeles. The woman was identified as a member of the Ku Klux Klan. The charges against Mr. Dyer are serious and he is expected to face a long prison term if found guilty.

Steve's eyes said, "Let's cut off her," and Anne's replied, "No."

But my blouse was still lit up when they drove up at the house. The guests were piled into the lobby. Steve came into the side veranda with Anne and there in the moonlight he took her. It was a different kiss the one by the lake; it was true and had more meaning. When Anne was still about her, she whispered, "I'm in love with Anne—the whole way."

"And I with you, Steve."

"We'll have to, both of us."

You Official—But money goes to your bank to buy the food of the day, and you are not a member of the bank.

Daughter (sighs) I will think the world's wonderful food. Every thing is so beautiful and there is so much to be thankful for.

The American newly arrived in London was shown at his hotel table and he was very much surprised.

Customer (from the table) I did this a better dinner, please.

Accompanied by a driver, an American mayor in a motor vehicle was stopped by the mayor on a street.

Officer—What's the big idea? What are you men doing?

Prisoner—Well, we are coming from the bank before lunch and we are on our way to the bank.

Officer—What is the great thing to say if the bank should stop the plan for a moment?

Prisoner—Well, we are coming from the bank before lunch and we are on our way to the bank.

There is no reason for panic buying. It is unimportant and unnecessary for business to rush to the bank to get the money.

The War in 1942

AS THE YEAR 1942 we may look back with pride on the fact that Canada has played in the momentous events of the last twelve months. During that period Canadian troops fought the Germans for the last time, and their heroic conduct at El Alamein and in the desert campaign throughout the United Nations. Canadian soldiers and sailors have fought in many parts of the world in the past year and they have taken an important part in the greatest allied enterprise. At home, production of war materials has reached heights which were undreamed of at the beginning of the year. The output of war materials is today three times what it was a year ago, and Canada is now the third largest armed supplier of the United Nations. All the activities of the war Canada had the capacity for making only a small amount of military supplies, but now what we produce constitutes not only the backbone of armaments of the United Nations, but is sufficient to allow large quantities to be sent to our allies. Three half the machinery in Canada today is being used to produce war materials, and we may be justly proud of this ever-increasing flow of supplies coming from our own industry.

Inflation Has Been Avoided

The average Canadian citizen doubts that he has been spared the ravages of inflation which he has to be thankful during the past year. Inflation is one of the greatest evils of war and this has been successfully avoided in Canada. The government has been successful in avoiding inflation through the control of prices and salaries. This system of control has brought about some hardships and inconveniences but these have been small, indeed, compared to the consequences of inflation. There are heavy but the thing this year have covered the cost of the country's expenditure on the war. The other half has been covered by war savings. If we had inflation in this manner there will be no staggering war debt to encumber the nation. At the beginning of inflation, Canada had a war debt of \$1.5 billion. The other half has been covered by war savings. If we had inflation in this manner there will be no staggering war debt to encumber the nation. At the beginning of inflation, Canada had a war debt of \$1.5 billion.

Turning Point May Have Come

THE TURNING POINT OF THE WAR may have come in the past year. In the past year, the United Nations have won a series of victories which have brought about a turning point in the war. Onion, December 21, 1942

EFFECTIVE NOW BUTTER IS RATIONED BY COUPON

The ration is one-half pound of butter per person, per week.

On and after December 21st it is unlawful to sell or buy butter in retail without the surrender of the proper coupon.

Butter coupons, Nos. 1 to 11, "Spare C" from Butten Book Number 1 use in the hands of the public, are to be used for this purpose.

Each Butter coupon, Nos. 1 to 11, "Spare C" entitles the holder to buy one week's supply. Only

Butter coupons, Nos. 1 to 11, "Spare C" can be used for the purchase of butter.

Each coupon becomes good on a definite date and expires on a definite date, and can be used only within the prescribed period, as shown below.

The system for butter is different from that applying to sugar, coffee and tea, where coupons have specified expiry dates.

When Does Butter Coupon Become Usable—and Expire?

Coupon Number	Not Valid For	Not Valid For
1	January 1	January 1
2	January 8	January 8
3 and 4	January 15	January 15
5 and 6	January 22	January 22
7 and 8	January 29	January 29
9 and 10	February 5	February 5
11	February 12	February 12

NOTE: Butter coupon No. 8, "Spare C" will be good for one week only during a 1-day period—December 22 to January 5. Butter coupons Nos. 1, 2, and 3 to 11, "Spare C", can be used with special permits.

Coupons for butter, like those for sugar, coffee and tea (the red and green coupons) must be destroyed by or in the presence of any officer of butter or its employees. If destroyed, consumers may lodge their

butter coupons with their retailers, on that the latter may destroy the required coupons without delivering.

Temporary Butten Cards

All Butten Coupons on Temporary Butten Cards issued to consumers of the armed forces on leave, visitors to Canada, etc., are good after December 22.

Butter Holdings Exceeding More Than One Pound per Person Must Be Reported and Coupons Surrendered

Consumers are now requested to examine their holdings to their possession for quantities more than one pound of butter for each person in the household, until before January 1, 1943, report their holdings to the nearest office of this Board. They must forward with their report: the number of butter coupons representing their butter holdings. If the quan-

tity of butter in possession of each person represents more than one pound of butter, consumers in Butten Book No. 1, which will be good for butter, they must to their reports endeavor to dispose from butter rather than surrender their butter coupons equal to the remainder of the coupon.

Special Notice to Residents

On and after December 22, residents must surrender their right to purchase new supplies of butter from their suppliers by surrendering to the supplier accordingly with coupons representing in the purchase of butter ordered from the supplier.

U.F.W. Deeds

The regular meeting of the U.F.W. was held at the home of Mr. and Mrs. J. H. with 11 members present.

The following officers were elected:—Pres. Mrs. W. H. Hender, Vice Pres. Mrs. Ray Wood, Sec. Mrs. E. Wood, Treas. Mrs. J. H. Hender, Program Committee. Mrs. H. Robinson, Committee, and Mrs. Margaret Wood.

A letter regarding the amalgamation with A.F.W. was read and discussed.

The bulletin for the month was read.

This was a splendid year on the foundations of a New Order.

Mrs. B. H. Hender and Mrs. E. Wood were appointed to interview the U.F.A. regarding a social function this month and to arrange a program.

Mrs. Hender was awarded a new member. The meeting adjourned and an enjoyable program followed.

Mrs. H. Robinson spoke in the hall on "Education". The members showed a keen interest in this topic. They expressed their appreciation and a desire for more discussion on the same subject.

Mrs. J. H. Hender and Mrs. E. Wood sang two songs. They were accompanied by Miss Eileen Hender.

A delicious lunch of doughnuts and coffee was served.

The next meeting will be held Feb. 10. Officers: Mrs. A. Hender and Mrs. W. Hender.

Deceitful For U.S. Senator Chisel

Brigadier General Jay Butler, Chief of the U. S. Senator Committee in Europe, has been awarded the American Order of the Star for gallantry during the general leadership of a heavy fighting force in the battle of Britain, Germany and other north east of Europe, during the Allied battle on Europe last August. He is shown visiting the dominion from Major General Chief Butler, Commander of the U. S. Air Force.

BUTTER CONSUMPTION TEMPORARILY REDUCED

It has become necessary to reduce the current rate of consumption of butter, and accordingly changes have been made in the dates on which (brown) "C" coupons of the current ration book may be used.

Spere "C" coupons 10 and 11 may not be used for the purchase of butter. Coupons 1 to 4 inclusive, have already expired.

Expired dates for spere "C" coupons 5 to 8, inclusive, have been extended to all consumers in stretching out the butter allowances over the period from now until February 28th.

Each coupon will continue to be good for the purchase of one-half pound of butter and will be good only on the dates specified below:

CHANGES IN THE NEW SCHEDULE

Coupon	Good for purchase beginning on:	Use good for purchase after:
5 and 6	January 28th	February 28th
7 and 8	February 1st	February 28th
9	March 1st	March 1st

The worth of this is an estimate and individual's allowance by 1.5% means per week during the temporary period.

MEMBERS WILL FIND IT ADVISABLE TO RETURN COUPONS TO THEIR SHOP AND BE AIDE TO RECEIVE THE NEW BUTTER ALLOWANCE WHEN THE NEW IS WORN

The Women Should Fall

V . . .

Boy—Have you heard that the Duke of Windsor is going to be fought over again?

Girl—Why?

Boy—It wasn't fought on the last.

Girl, said then, was making his first trip to the barber.

How do you want your hair cut, Boy?

Like Daddy's—with a hole on the top.

What is your favorite book?

It has always been my book book—but that is looking to be almost out.

Life was very hard, thought the sergeant as he went round inspecting the rules of a very new set of men.

As he passed down the middle of one column he could hardly believe it was up.

And what's that on his face, thought the sergeant?

The guilty one who smiled, but smiled hopefully.

Well, sergeant, I thought it would help to make the bullet man and later.

Because he had that a college education for women is false, if they're not, it's insignificant.

She (nervously) You said if I'd marry you you'd be terribly grateful.

He (nervously) Well, what of it?

She—You're not your grandly himself.

What if you think about getting married tomorrow?

I think it's a great thing. When the government takes and runs everything, it's hard to pay out the taxes itself.

About the only thing women give me with the number card to work is even men's goods.

People wouldn't get divorced for such trivial reasons if they didn't get married for such trivial reasons.

Test Your Seed Grain!

Test Your Seed Grain! Seed is the most important factor in the success of your grain crop. It is the seed that determines the quality and quantity of the harvest. Therefore, it is essential to test your seed grain before planting it. This will ensure that you are getting the best possible results from your seed.

Food for War

PRESERVED, PACKED AND SHIPPED

Home, defense and production would labor to save to supply food to the United Nations, most is not for the United Nations but for the United States. The United States is the only country in the world that can produce enough food to supply its own needs and still have enough left over to supply the needs of other countries. This is why the United States is the only country in the world that can stand up to any aggression without fear.

Canada Fights Inflation

WILFRED LOVELL, a leading authority on the subject of inflation, has brought attention to the fact that the war is doing much to increase the price of goods and services in Canada. He points out that the people of Canada have been forced to pay more for the same goods and services than they did before the war. This is due to the fact that the cost of production has increased, and the government has not been able to control prices and wages. Inflation has become more and more serious, and it is a serious danger to the Canadian economy. The government must take steps to control inflation, or it will lead to economic disaster.

The cost of living in Canada has risen very slightly since the outbreak of the war. This is due to the fact that the government has been able to control prices and wages. However, the cost of living is still rising, and it is a serious danger to the Canadian economy. The government must take steps to control inflation, or it will lead to economic disaster.

Further Price Control Legislation. In a recent address before the Ontario Federation of Agriculture, Mr. J. H. McLeod, president of the Board of Agriculture, made a statement on the subject of inflation. He pointed out that the cost of living in Canada has risen very slightly since the outbreak of the war. This is due to the fact that the government has been able to control prices and wages. However, the cost of living is still rising, and it is a serious danger to the Canadian economy. The government must take steps to control inflation, or it will lead to economic disaster.

Livestock Producers of District to Organize at Meeting Saturday

An Open Letter to the Livestock Producers of Carstairs District

An producer of livestock in Carstairs district, are you interested in marketing your livestock to the best advantage and in doing so you can to protect the livestock industry against exploitation by those who handle your product after it leaves your farm.

In January 1941, the Alberta Livestock Commission, a producer-owned and controlled selling agency, was formed. Its purpose was to protect the interests of the livestock producer by handling his livestock on the basis of merit. The Commission has since then been working to protect the interests of the livestock producer by handling his livestock on the basis of merit.

The Alberta Livestock Commission has for its purpose the marketing of livestock on the basis of merit. It is a non-profit organization and its purpose is to protect the interests of the livestock producer by handling his livestock on the basis of merit.

A preliminary meeting of the livestock producers was held in Carstairs on March 11th, when the purpose of the meeting was to discuss the formation of a district livestock commission. The meeting was held in the Carstairs Hotel and was attended by a number of livestock producers.

See the Carstairs-Herald, March 17th, at 2 o'clock only.

GARDEN NOTES

The Right Time. The right time to plant your garden is now. The weather is just what you need for a successful growing season.

A little handiwork will make a big difference in your garden. A little extra care can make a big difference in the results you get.

Flowers and plants are a beautiful sight. They bring life and color to your garden and make it a more pleasant place to be.

It is a good idea to plan your garden in advance. This will help you to know what to plant and when to plant it.

WAR DOLLARS DO THREE ESSENTIAL JOBS:

- 1. HELP CARRY ON THE WAR—**
Every possible dollar will be needed to bring the war to a successful conclusion. **THEREFORE**, every dollar you lend enables you to play a vital part in the great fight for freedom.
- 2. CURB WASTEFUL SPENDING—**
To retard wasteful prices and rises in the cost of living, income must be diverted from useless purchases and made available for war use. **WAR SAVINGS** mean money put aside to aid essential war production.
- 3. PROVIDE A NEST EGG—**
Following every major war, there is a period of economic re-adjustment. The man who has taken his share of **WAR SAVINGS** will find this money very useful during this transition period.

WAR WHOOP

1943 MODEL

YOU HEAR IT at all hours... the long-drawn cry of the locomotive whistle. It's the war whoop of the railways.

It may be a troop train speeding to help a dear with a conveyer... it may be a long freight loaded with tools, guns and other materials of war, many of them built by the railways themselves... it may be another week's supply of commodities to keep a war plant in production, or food, fuel and other necessities for the home front.

It is the proud war whoop of Canada's greatest war industry—the railways, which are serving the nation as effectively in war as in peace. Only the railways can furnish mass transportation on such a scale.

Your railways were ready... ready in war, so the Canada could strike with all her might. They will be ready in peace again to serve a greater Canada... rolling over towards us highways of steel.

AT 300 MILES PER HOUR FLAWS MUST BE 'GROUNDED'

**ELECTRICITY
SEES THAT
THEY ARE!**

ABOVE: Putting the flaw out on camera so that the flaw can be photographed by the operator also shown.

LEFT: The electrical machine completely disappears upon the flaw so that the flaw can be photographed by the operator also shown.

When instructors and students in the Commonwealth Air Training Plan take to the air they have absolute confidence in their machines. They know that every power circuit is tested and driven has been used to ensure perfection of every individual part.

In carrying this perfection one of the most interesting procedures in the testing of steel parts. Each part is given an Electromagnetic test. Any flaw or crack that the human eye cannot detect then is instantly spotted by this method.

The steel parts are first highly magnetized by an electric current. Then over each part is

passed a thin coating of minute steel particles in a fluid base.

Where the metal is perfect the fluid flows off, but where there is the slightest crack or invisible break in the metal, the thin particles cling tenaciously, indicating to the operator the flaw in the metal. Such parts are "grounded".

At 300 miles or more per hour every part must be perfect, and through the Magnetism test, Electricity assures that it is perfect.

October—It's a reminder. Every time you open a tin of Pork and Beans, you are reminded of the war effort.

A Bookman, claiming that a certain doctor charged \$5 for the first visit and only \$2 for the second, visited the doctor's office one day and said: "Well, doctor, here I am again."

I don't remember you, replied the doctor. At any rate, how are you feeling?

Not at all well, doctor, he said. Just continue your last prescription for another week, two dollars, please.

Stranger—Last, my boy? Why didn't you hang onto your mother's skirt?

Billy (stammering) I tried to, but I couldn't reach it.

What do you do with your old car or motor?

None—Can you tell me that?

Applied—Yes, but I have no longer.

So he took you further, eh? Did he show you a good time?

Yes, he gave me a good time.

Papa, what is a prophet?

My son, a prophet is a man who tells you what is going to happen but doesn't let any money on it.

The young doctor came in late in town.

What is he doing now?

Well, you have that fellow he's been treating all winter for polio but he's a champion.

Out—Who is the responsible man in this town?

Oh, yes—I don't know who the responsible party is, but I'm the one who always gets the blame.

Now, mother, I am coming you that this dinner will be half your usual cost for you.

Good! I'll have a couple.

The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $\epsilon \rightarrow 0$. In the second part, the asymptotic expansion of the solutions is constructed. In the third part, the asymptotic expansion of the solutions is constructed. In the fourth part, the asymptotic expansion of the solutions is constructed.

1. The first step is to identify the problem. This involves understanding the current situation and the goals that need to be achieved.

BRITISH MEDIUM BOMBERS LAY MINES IN ENEMY WATERS

While carrying Humber aircraft being loaded up by men and women ground staff at an R. A. F. air base. In addition to their work as aircrews in enemy waters, Humber aircraft have been made a valuable contribution to the R. A. F.'s strategy of enemy war industries. (The strategic plan, communications and heavy industries in the Ruhr have all been attacked by these various range aircraft.)

AN OPEN MESSAGE TO DEPOSITORS of the BANK OF MONTREAL

In this time of national emergency our country is making demands of its citizens such as we have never known before. And rightly, for we have never been faced with a crisis such as this war has brought to our doorsteps.

You — our depositors — have responded loyally in many ways, and we, at the Bank of Montreal, take particular pride in the splendid way you have bought Victory Bonds. We take pride, too, in the record of service of this Bank to its customers and to Canada. For a period of over 125 years — which has embraced the troublous times of eight wars — our Bank has continued on its steady course, always confident that Canada would win through to a future that would far outshine its record of the past. This faith has always been justified . . . it is still as strong as ever.

Today, in this time of national crisis, we appeal to you to support the nation's war effort by drawing on your savings and earnings to the limit of your capacity to buy Victory Bonds. We shall be glad to place them in safekeeping for you at a very small charge. If you must have cash at any time, Victory Bonds are always acceptable as security for a bank loan and the arrangements are simple and prompt.

Your country needs your help NOW through your support of the Fourth Victory Loan.

To Help Him NOW . . . and When He Comes Home

YOUR SON (or your neighbor's son) is in battle dress perhaps . . . on a ship at sea, or flying a bomber. You are proud of him, but you pray for the time when he will be back home. You will do anything you can, you say, . . . everything you can . . . to bring him home safe, and bring him home soon.

Well, here is one thing you can do. You can buy Victory Bonds.

When you buy Victory Bonds you help your boy to do the big job he is doing now. You will do make sure that he has everything he needs: better equipment than the enemy has. And you are saving money to have a better home for your boy to return to.

SAVE MONEY FOR HIM WHEN HE COMES HOME

He will want to work with new farm implements . . . new equipment . . . to replace things that may be worn out. He will have new ideas to improve the farm. He may want to experiment with new crops, new stock, new farming methods. He's young and ambitious as you want him to be.

He will need money to do things he plans to do. Victory Bonds . . . money saved now and loaned to Canada to help win the war . . . will be yours and his too when the war is over.

WHAT IS A VICTORY BOND?
A VICTORY BOND is the promise of the Government of Canada to pay to each the full face value of the Bond at the time stipulated, with half-yearly interest at the rate of 2 1/2 per cent until maturity. A Victory Bond is the same investment in Canada. The entire resources of the Dominion are loaned to Canada. Canada has been buying bonds for 7 1/2 years, and has never failed to pay every dollar of principal and interest. A Victory Bond is an exact note really guaranteed by each man, woman and child.

National War Finance Committee

WHAT IS A VICTORY BOND?

A VICTORY BOND is a portion of the Dominion of Canada to help build more ships and tanks for the war effort. It is a loan to the Government, and it is repaid by the Government when the war is over. A Victory Bond is the simplest and most certain way to help the war effort. It is a loan to the Government, and it is repaid by the Government when the war is over. The money from the sale of Victory Bonds is used to buy war materials and to pay the wages of the men who are fighting the war. A Victory bond is a most sure method of helping the war effort.

We are sure that to invest you bring in or more than interest. If you have friends willing you to have them own some, you will appreciate your giving to the war effort. There is no charge for these items and you will be interested in them.

BUT WAR SAVINGS IS NOT

Have you made your purchase of Victory Bonds?

Friend's Husband (to wife) "Come and help me fill in this application form for the King's Commission on Poking in Government Service."

Georgy—What about these?

Major's Mother-in-law.

Georgy—Georgy, but I can't let you go by without the proper password, sir.

Major (disappointed). I've forgotten it for the moment. You know me well enough.

Voices from the frontlines
 How I stand there talking to him all night—about him.

Mother—What makes you think your going man has matrimonial intentions?

Daughter—Well, when we were looking at Mother had to try to convince me I looked better in a \$10 suit rather than one that cost \$15.

Will your people be surprised when you graduate?
 No, they've been expecting it for several years.

Why did you settle your little about?

Young Bobby—Well, we were playing Adam and Eve, and instead of tempting me with the apple, she ate it herself.

Turnout (to mate female, whose pig he had just run over) Sir, I will replace your animal.

Farmer—Sir, you better yourself.

Say, Mum, we help sent down from heaven?

Yes son.

I guess they like to have things quiet up there huh, Mum?

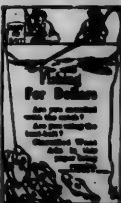

Were your bare shoulders last summer?

Kathleen. We didn't get much booty, but they stole the tax collector most thoroughly.

A profession of faith

WE have faith in Canada that she has faith in her past, in faith that the courage of the pioneers and the spirit which achieved Confederation and linked a continent with the shining steel of railroads have laid strong foundations for national greatness and unity.

WE have faith in her present, in the part she is playing to save the world from tyranny... in her young men and women who serve on land and sea and in the air... in her workers who labour for more than wages... in every man and woman and child striving for Victory.

WE have faith in her future, in believing that she is destined to exert an ever-increasing influence in world affairs, and in the shaping of tomorrow, when many will turn to her with new hope.

WE have faith in more than the splendours of Canada's lush scenery and her air-tillings, the resources of

her untapped resources, or even the glorious war record of a people numbering less than twelve millions.

WE have faith in a faith in a land we call home, whose soul speaks to us from every free acre of Canadian soil... in the splendour of the Rockies at sunset, the blue mystery of a Lacandon lake, the quiet of an Ontario woodland, the far call of prairie horizons, the sound of surf on the Atlantic shore and the work of the Pacific tide. It speaks to us from churchyards where Canadian dead lie beneath the arbours of English blossoms... from the purple fields of France and Flanders... from the winged and sea-faring and mechanized spirit of a new man.

WE have faith in a faith in her people... in her people, noble and obscure, with whom we daily rub shoulders... and by whose united effort, sacrifice and creative vigour the greater Canada of tomorrow will be built.

Must Clean All Premises by May 15th

The following letter was received by the Village Council, from the health inspector:

It is with regret and the co-operation of all house holders is asked in cleaning up the town and keeping it clean, to prevent the possibility of an epidemic.

On Wednesday, April 24th, I made an inspection of the lanes of the town and found sanitary conditions very bad. The winter accumulation of garbage, the cans, etc., along with other fairly large items of the lanes and vacant lots.

Carstairs Lagging in Victory Loan Sales

This district is falling down badly in the present Victory Loan drive and up to the present has only reached 85% of the quota allotted. Worse than that we have the last percentage of any point in the province of Alberta.

What's wrong? Are we not patriotic as other districts in this province? Are we any more old-fashioned than other districts? The answer to both these questions is a negative 'No'.

In all past reports we have exceeded our quota and in the last two we were one of the first over the top. Even admitting that our quota, we can do a lot better than we have done to date.

This district has responded nobly to the number of men and women who are serving in the various branches of the armed forces and before the loan period is over we will have that number of us who are behind with make certain that they have the good, tanks and planes, needed to carry on.

We can, as the Victory Loan slogan says, "think the Atlantic" by buying all the bonds we possibly can.

Remember too, the committee who are your neighbors and are just as busy as you, trying to get their quota.

Help them to meet their quota by making it a point to see them or if you are in town, drop into their headquarters in Johnnie's office or at the loan bank and leave your order for bonds.

Do it right now and let's get the quota out of the matter possible.

The following is a list of subscribers for this district:

Left Group: Chas. Upshall, H. B. Robinson, Parker Spivack, H. A. Shaw, Tom Simpson, Doug Mack, Spence Jackson, W. H. Smith, Alvin Robinson, Mrs. A. Pearson, Edna Stewart, C. U. Gillingham, J. H. Ure and Howard Stewart.

Warfare Adjustments

TO THE AGRICULTURIST in Canada, it often appears that the war has been a blessing in disguise. The war has brought about the shortage of labour, scarcity of raw materials, and the resulting increase in the price of many commodities. The war has also brought about the shortage of many commodities, and the resulting increase in the price of many commodities. The war has also brought about the shortage of many commodities, and the resulting increase in the price of many commodities.

Business Highlight By New Service

IN THE COURSE OF THE war, it is interesting to consider the changes in the business of the Canadian people. The war has brought about the shortage of many commodities, and the resulting increase in the price of many commodities. The war has also brought about the shortage of many commodities, and the resulting increase in the price of many commodities.

IN A recent report issued by the Royal Bank of Canada, a review of the war has been given. It is a review of the war as it has been lived in Canada, and it is a review of the war as it has been lived in Canada. It is a review of the war as it has been lived in Canada, and it is a review of the war as it has been lived in Canada.

CANADIAN NOTES

When vegetables are really fresh, they are a pleasure to eat. They are a pleasure to eat, and they are a pleasure to eat. They are a pleasure to eat, and they are a pleasure to eat. They are a pleasure to eat, and they are a pleasure to eat.

With a little thinking, however, it could have been really fresh. It could have been really fresh, and it could have been really fresh. It could have been really fresh, and it could have been really fresh. It could have been really fresh, and it could have been really fresh.

World's Champion Wheat Grower
Recommends VICTORY BONDS
Dr. Wheeler says:
If you are asked to give money to help to win the war we would not need to make a big sacrifice. Some are giving their lives. We are asked to spend money. I am sure that farmers throughout Canada will be glad to lend money to their country, for like all other Canadians, they know we must win this war to help.

There is a tremendous need for buying Victory Bonds. The money we need to Canada now, to help to win the war, will be used to us as we please after the war has been won. Ready cash will be handy to have when we need money to replace farm equipment that is wearing out and so on. Farmers always find it in their power, and there is no better way to invest than by lending aid to our own Victory Bonds.

WALK HIGH THE TOWER OF JESUS

Borrowing for War Farming

Farmers of our Canada—great growers, much more, dairymen, fruit growers, vegetable producers, poultrymen—all kinds of farmers—are facing production, fighting hard early and late to supply the enormous quantities of products demanded in the growth of all war.

When armed forces and civilians alike must look. The war demands an farm production more than financing. The Bank of Montreal, ready always to cooperate with agriculture, is making special efforts at this time to help the farmer produce food for Canada and the British Empire.

Dear—Bring me some lunch along with French-baked potatoes, and I'll have the chop-lean. Water—Yes, sir, forward or back-end?

Gather—Well, after a round with me, how do you like my game? Caddy—Let's O.K. I guess, but I still prefer golf.

Teacher—It gives the great pleasure to give you 10 on your report card. Junior—Hehe he he, thank, and really how low.

Scared patient—Oh, doctor, I'm afraid I'm going to die. Doctor—Nonsense, that's the last thing you'll do.

Hi—Call the manager, I never saw anything as tough as this steak. What—You tell, sir, if I cut him manager.

What do you think of the conclusion?

The man I think of there, the man pleased I am only one of them you get in.

Dad—The best way to enjoy perfect health is to rise at five every morning and have a cold bath. Patient—Oh, well, what's the next best way?

Private—Why is a girl like a dog?

Corporate—Because it keeps up on you when least expected and it takes a good kick to bring it down.

Wife—I wonder if I'll live to be a hundred.

Hubby—But if you guess much longer at forty, dear.

You think into a tank before you swim.

But I don't expect to retire for another 10 years.

Why did they separate?
Robbery known.
Oh, how terrible.

Does your father keep the The Commendator?
I'm not sure, but I think it's all he can do to keep up with the rotating requirement.

Printed—So now you and your son are carrying on the business together?

Owner—Not exactly I run the business, and my son keeps the carrying on.

JAPANESE DEFEAT IN NEW GUINEA—ARTIST DEPICTS FALL OF BELKA

Artist's impression of Allied troops sweeping up the last of the Japanese forces in New Guinea. After 61 days of bitter fighting, Japanese defenses and morale crumbled. Before the fall of the important position in Belka, there was a bitter conflict among the Japanese troops. Some of them, realizing the position was hopeless, abandoned their defenses and tried to swim to Sumatra in boats, but others were machine gunned both from the air and by Allied troops on the beach. With the fall of Belka, the Allies are now concentrating on the isolation of the Japanese position on Sumatra Point, and although there is still some rough fighting ahead, the days will be fully repaid for their tenacity and drive from the territory they have won.

Base Crimes Committed By Germany In Violation Of The Accepted Rules Of Warfare

From an official note by V. H. Shilders, President of Foreign Affairs of the I.R.A., as printed in the Irish Independent.

On the basis of documentary materials at the disposal of the British Government, it is now abundantly established that, throughout the war, the German Government, in violation of the accepted rules of warfare, committed crimes of a most heinous and barbarous nature.

By these crimes, Germany and its allies have committed crimes of a most heinous and barbarous nature, in violation of the accepted rules of warfare, and have thereby rendered themselves liable to the most severe condemnation of the civilized world.

The British Government, in its official statement, has pointed out the various crimes committed by Germany and its allies, and has called upon the civilized world to take action against them.

British Royal Air Command Unit Co. Action

The British Royal Air Command Unit Co. "H.E. Sparrowhawk" is the 11th of the biggest operations to date, which is being conducted in British waters. These are mainly water operations, but the aircraft must be familiar with a home other than the water. They are, many of them, of various types, and in 11 years of age, are constantly held ready for action. The picture shows these men, seated in the rear of a Wren, awaiting their call to action.

Follows Father as C.P.R. Vice-President

Eric A. Ivell (left), newly appointed vice-president and controller of the Canadian Pacific Railway Company, is carrying on a family tradition in that his father, J. A. Ivell, was the president and controller of the company from 1918 until 1928 at which time he became vice-president of Finance and Treasurer, a position he held until 1932 when he retired after more than half a century of railway work. The new vice-president and controller is 35 years old and has been associated with the company for 30 years. His record is that he has been at McGill University on a Canadian Empire Scholarship and then went overseas to serve in the Great War as a lieutenant with the Canadian Army. He was then awarded a scholarship to the Government of Canada to study at McGill University where he graduated from the Faculty of Applied Science.

THE WEEKLY SHALL-FULL

V . . .

Sorry, ma'am. I can't deliver this meat, and the police butcher. You see, you've just bought my horse.

Did her up, ah?
Another cup of coffee?
Need any blades?
The customer is always right.

A lady went to the aquarium and asked to borrow a live shark. What do you want with a shark? the incredulous attendant gaped. A cat has been eating my golf-balls, and I want to knock it a lesson, she replied.

Customer—Do you remember that cheese you sold me yesterday?
Grocer—Yes.
Customer—Did you say it was imported or departed from Swiss soil?

He—If I had a million dollars do you know where I'd be?
She—I'll say, You'd be on Our honeymoon.

Customer—Waiter, I know meat is scarce but don't you think this steak is ridiculously small?
Waiter—Yes, but it will take you a good while to get through it.

Do you think you'd care as much for me if I had lost the money?
Has he?
Why, not?
Of course I would, dear.

Clarence, she called. He stopped the car and looked around.

I am not sure and to call my chauffeur by their first name.
Clarence. What is your surname?
During meow.
Drive on, Clarence.

Refinement has been described as the ability to yawn without opening the mouth.

Mother—What makes you think your young man has matrimonial intentions?

Daughter—Well, when we were looking at Easter hats he tried to convince me I look better in a \$10.00 model rather than one that cost \$15.

What the dickens are you doing if the seller demanded the money?

If it's any of your business, replied the son frigidly. I'm laying in a supply of coal.

Seller—Have you any good gosh that makes better children gosh than any town fish you can buy?

SOLDIER of the SOIL

THIS year the Canadian Farmer urgently needs help. He needs your help to produce the food so necessary for victory. Many thousands of farm workers are serving in the Forces, so that the farmer—the Soldier of the Soil—is short-handed, but short-handed as he is, he is called upon to produce more food than ever before. Food is one of the most powerful weapons of war. Grain, bacon, dairy products, eggs, beef, fruit, vegetables—FOOD to feed our armies, our allies and our people we must have.

WHAT CAN YOU DO?

You may be a school teacher, student, business or professional man, or officer or store clerk—no matter what you are, if you have a few hours, days, weeks, or months of free time this summer, you can do your country and the farmer a great and patriotic service by helping out on the farm. You may be inexperienced, but you still can help. You will find work on the farm healthy and congenial. It will give you the satisfaction of feeling that you have brought Victory nearer.

What you should do NOW!

PORK AND MEATS

THE WEEKLY MARKET

The most young thing is touring the market place. Already the butchers have been around since the ground, and sold for a profit. But what will you do with that large hog? The home would sell that, too, if he could. But what could a hole like that be used for? Truly estimated the newspaper of Montreal. I mention we could not up and sell for its immediate.

A housekeeper sent a mail order to her market and gave a second order of meat. As a job she also gave a third order of meat. The third order on the last day of the year. We have no more meat.

Then it is the golfer who asked the hotel owner in Montreal dining room if he could give a room to a housewife one of his guests was taking on a week in his house.

Teacher W. can give you an excellent explanation of the situation. At right, Montreal. (Montreal)—Latter and enough to fight but never ending.

Housewife are useful for reporting on the situation with confidence, courage and the like.

But to help in Montreal, the only help.

Yes, was the reply, and was the last of you, you might have a lot of it.

My French boyfriend said to me a picture yesterday.

How does he look?

I don't know yet I haven't had a picture.

I hope that you will come with me tonight, Mr. James.

Oh, of course, I hope that you don't think I have been merely for pleasure.

One gap still better not have been in the world in a connection.

Speaking of old world money we could have an eleven.

EARLY PIONEERS

Proven, Proven For Years 1925

During the past few years, as provided by the Wartime Privileges and Trade Board, would have been ample for the early pioneers. They put down the whisky supply of canned goods without sugar and not a morsel of it. It is a letter to the editor of the Liberator, Mr. Campbell describes his long experience in the early days of the war. He says: "We had an abundance of food and the milk produced excellent fresh vegetables." He writes: "I never drank of them, only active services among them, didn't have the money to buy sugar in quantities, I ordered, however, for my own use."

"Young women, people from a magazine called the Liberator, and the good the Country Club," Mr. Campbell continued, "we put down the groceries without sugar, adding it as the groceries were opened in the winter." The system, he explained, was similar to that provided today by the Department of Agriculture.

As we are keeping quiet in the present, Mr. Campbell told us in a letter where the canned goods stored in a hole in the ground and they were frozen until 21 years later. "While working, we were eating," they found the food and meat in the hole. It was in a perfect state of preservation and we were able to use every bit of it," the writer declared.

"In these days," Mr. Campbell continued, "we had to do a lot of sugar. But there was a definite shortage of money and so we had the situation in a cold-blooded reality."

HEALTHY PRACTICES

Public health authorities in Ontario warn that pneumonia is a serious disease, especially in the winter months. They advise people to take certain precautions to avoid the disease, such as wearing a mask in public places and avoiding crowded rooms. They also advise people to get vaccinated against pneumonia.

The health authorities also advise people to eat a healthy diet and exercise regularly. They advise people to avoid smoking and drinking alcohol, as these habits can weaken the immune system and make a person more susceptible to disease.

They also advise people to get plenty of rest and to avoid stress. They advise people to take breaks from work and to spend time with family and friends. They advise people to avoid overexerting themselves and to listen to their bodies.

They also advise people to get regular medical checkups. They advise people to see their doctor if they have any symptoms of pneumonia, such as a cough, fever, or chest pain. They advise people to see their doctor if they have any other symptoms that concern them.

They also advise people to get vaccinated against pneumonia. They advise people to get the pneumonia vaccine if they are 65 years of age or older, or if they have certain medical conditions. They advise people to get the pneumonia vaccine if they live in a nursing home or in a long-term care facility.

It's ridiculous! It's outrageous!
This is what the trouble
They're going to beat business
as a cook!

Mother, when's Daddy tonight?
At the bridge?
No, dear, Your father won't do
as to keep up the office.

You'll be surprised, then, that
the owner of a valuable stand in
his neighborhood, how many people go
to him and ask for some special food
I've said thousands.
Good thing they ask you instead
of me, right? I never heard of it.

No more than I said last night,
I remember wonder where
they all finish up.

Many was an excited mother, but
his spelling was not a good show
one, he thought it best to write to
the father of his beloved son, asking
his consent.
Dear Sir, much on the day I
think to ask for the hand of your
daughter, the daughter of the family.
The father's reply was prompt.
It was. Did you mean the first of
the family or the daughter?

Some years ago a clothier in
Paris had a son to be married in the
capital. His father-in-law was a
business acquaintance. I have
mentioned the marriage of my son,
he said, and still they did not
say. What said I did?
I will give you a list of provincial
marriage, read the other.
The father's son was overjoyed to
marry, but most things in the world
are not. They will think it is a
marriage and will take advantage of it.

A week later the overjoyed son
rushed into his father's store to a
great rage. From advice you gave
me, he shouted. Each one to return
I met the seven coats, and I have
of my old, returned the six sent
down to the service and kept the same one.

The only good part the son
could get was a gift from his father.

How many laugh at foolishness,
but they begin how you come along
crying big words.

How are you on gasoline?

CHAPTER IV

Jonathan Hale turned away from the door and looked back at the woman who was standing in the doorway. He saw that she was looking at him with a sad expression on her face.

"What is it, Mary?" he asked. "What is wrong?"

"Nothing," she said. "I'm just thinking about you."

"Thinking about me?" he asked. "What about?"

"About the future," she said. "About what you will do when you get married."

"I don't know," he said. "I haven't thought about it yet."

"You should," she said. "You should think about it now, while you still have time."

"I will," he said. "I will think about it."

"I hope so," she said. "I hope you will."

"I will," he said. "I will think about it."

"I hope so," she said. "I hope you will."

"I will," he said. "I will think about it."

"I hope so," she said. "I hope you will."

"I will," he said. "I will think about it."

An opportunity to **SAVE** money ... the convenient way

● Investment buying has made it possible for you to own many things you would otherwise be unable to. It's easy to pay for things the investment way... by paying as you save.

How try it? Now is your opportunity to do so. Buy the investment way by putting money... as you get it... into Victory Bonds.

When you arrange to buy Victory Bonds on the installment plan you undertake an obligation to yourself to save money regularly.

...and you fulfill an obligation to your country, liberty and peace.

You help to win the war... help to speed victory this easy, convenient way... by saving money regularly.

Any bank will arrange to get Victory Bonds for you, and you can pay for them during the next months in installments convenient to you.

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Government of Canada to repay to you the full value of the bond on the date of maturity with full compound interest paid then. A Victory Bond is the most investment in Canada backed by the entire resources of the Dominion. Canada has been making bonds for 75 years, and has never failed to pay every dollar of principal and interest when due. A Victory Bond is an easy, readily accessible and safe way.

In all our attempts to blueprint a future, one striking and significant fact appears. In the past we have been able to achieve a world union on an economic and cultural basis that has been complete and satisfactory; but we have failed lamentably in achieving any durable form of political union. As business men and individuals we have dealt successfully with other individuals. We dealt not as nations but as traders, scientists, artists, communicators.

[illegible]

Only the other day Mr. Haley, speaking before the Trades and Labor Congress of Quebec, was saying that while he was in Canada last August to develop trade between continents, "even to the point of helping them realize that they may be able to trade effectively with us and with others." And in Washington, the American Consul General, Mr. Thers-Gaumeley is the Prime Minister, was saying the same thing. This is the vein of Canada's hesitating on economic matters that economic union, which we have found good. But we must go further than that. In a political union, on that matter we will not argue but not a decade of friendly understanding and comradely

At normal times, as shown by the years 1934 to 1935, Canada imports more than 200 million pounds of vegetable oils, mostly from countries in the money lands. Since the beginning of the war, many of these oil sources have been cut off, but their absence has been considerably offset by the efforts of the Dominion Department of Agriculture to increase, on the one hand, the production of oils that can be grown in Canada, and, on the other hand, to increase exports by the scientific adaptation of certain

price for other uses. For example, soybeans are now in use as a source of oil. Much of the oil is transformed into a fluid drying compound which is a substitute for kerosene oil, and another non-drying portion which can take the place of steel, paint, or other heavy-duty materials. The use of these new materials may be cheaper. As for example, a possible pound of developed as a substitute

may be superior to the standard kerosene. It is reported for a certified unleaded oil which is said to be most stable than palm oil in the tropical and semi-tropical climates.

On the other hand, in exporting

Doctor (he related some being
insulted for the insurance)
What did your father die of?
Hager: Ah don't know, but
but it wasn't nothing serious.

Charlie—I'll take my hat off to
you speller, eh. It was all I
could do to get them test right.
Should—Weren't they from?
What did they look like when
you opened them?
Charlie—Oh, do you have to
open them?

Wife—I was quite competent at
the time being
Hager—I can't believe it.

Who outgave you?

Physician—Now, Mandy, in or-
der to find out what's wrong with
you, we will have to take pictures
of you. Have you ever been X-rayed?

Woman—No, doctor, but I've been
X-rayed.

What could he mean, eh. asked
the school teacher, then a man
without a country.

A country without a man
answered the pretty girl student.

He was kicked out of school for
cheating.

How come?
He was caught counting his ribs
in a physiology exam.

Who was that lady I saw you
out with last night?

I can't say, I was just doing

Many birds sing without opening
their bills, says a naturalist. Maybe
we'll find some like singing if we
didn't open ours.

Mother—And of course I wish
the kitchen floor clean enough to
have our meals on.

How much—What will the night
man think?

Mother—About what?

Mild—Your eating on the floor!

A farmer who was asked what
time he went to work in the morn-
ing replied: Son, I don't go to
work. I'm surrounded with it when
I get up.

Mother—After I wash my face I
I look in the mirror to see if it's
clean. Do you?

Little Willie—I don't have to. I
look at the towel.

Teacher—Now, as usual, the ex-
amination will be conducted on the
honor system. Please take seats
three rows apart and in alternate
rows.

And then there was the dumb
dude who bought a minked cow so
he would have some milk to
milk.

INFORMATION

For Western Farmers Selling
Feed Grains to Eastern Farmers

WHEAT · OATS · BARLEY

1. Wheat, up to 14 bu. per
imperial ton and was cut of
one and/or barley over the
quota may be shipped.

2. Every seller must apply to
the Canadian Wheat Board,
Winnipeg, for a permit to ship
each carload before loading
for shipment.

3. Cars shipped will be in-
spected at Winnipeg for grade
and weight. On the basis of
sample inspection, certificates
will be issued by the Board of
Grain Commissioners, for cars
held "on full" for regular
inspection. The Inspection Com-
mission establishes the grade
and weight.

4. Discharge up to 5% is al-
lowed. Discharge above 1%
cannot be charged for, and pay-
ments will not be made for the
difference in weight between
1% and the actual discharge.

5. When or scale tickets are not
weighed must accompany
the bill of lading. Freight
charges are to be paid by the
seller in Canadian funds.

PRICE INFORMATION

On one and barley the price
per bushel to be charged the
current former in the calling
price (or the cash price if it is
lower), less in value at the
Winnipeg or Port Arthur.

GOVERNMENT SUBSIDIES AVAILABLE

As announced by the Minister of Agriculture, the subsidy of
the per bushel on one and the per bushel on barley applies
to one and barley sold by any person from a farmer or
first dealer out of Port Arthur or Port Arthur. Special ap-
plications must be made to the Canadian Wheat Board, Winnipeg,
in order to receive payment. Special forms for this purpose
will be provided by the Canadian Wheat Board on request.
These subsidies will also be paid on emergency sales between
October and March to western Canada, provided the farmer
delivers the grain to a elevator and then ships
the grain to the United States.

FARMERS AND FARM WORKERS

If Your Farm Work has Declined
for the Winter, You Are Needed
Somewhere in Essential Employment

Highly essential work—very important
in Canada's war effort and for the
welfare of the Nation—is threatened
with shortage of workers. One of the
few sources of men available for other
high priority jobs is those men on the
farm who will not be needed at home
during the Fall and Winter. Heavy
minds must be put in many im-
portant, producing, vital essential food
products in food processing, in railway
transportation. If you live on a farm
and are not needed at home during
the Fall and Winter, you are urged to
answer this national appeal.

Farmers engaged in essential work
during the off season will be allowed
to return home when needed. Also,
those on postwar under Mobilization
Regulations will continue on
postwar while in approved essential
work during the dark season on the
farm.

Please answer this vital call NOW.

"What's holding you back brother?"

"Well, folks who are in these plumes at the Auto Club say they need business to run their shops, and they're beginning to wonder what happened to you. These fellows are in the thick of things, a considerable number of figures . . . and you're doing the same."

But when business and advertising, you'll get different material making and experience that compares with one highly after the war.

If you only want to put your face back, and if you're in, don't say a thing to the world to look back. You can go ahead today. You can take your things to a few days' work under the guidance of women's class. What about it, brother?

Joan—I believe Dr. Hunk is extremely wealthy.

Kate—How can a doctor make so much money?

Joan—He owns a large oil well.

Kate—Oh, he makes money from his sick and well.

Jo—He bridges people get mad if you don't play well. In poker they get mad if you do.

Wito—I'll never marry a man whose fortune hasn't at least 400,000.

He (cursing); Oh darling, mine is all yours.

You can't keep a good man down, said the minister's assistant, who had just eaten a missionary.

A man entered a barbers shop and asked for a "Scotch shave". The barber gave him a close one.

Dorset—I'll see that soup around up for you for ten dollars.
Polson—don't do, I just want plain soup; not lambasting or extraordinary.

It doesn't take a married man long to find out that the building shown was merely a window built.

Mother (to son across her knee) I'll teach you to be a doctor soon to a dog's tail.

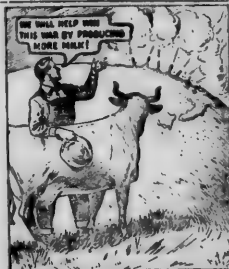

Son—But, mother, it isn't our dog.

Mother—No, but it's my cousin's.

Just fancy Jim talking to my boy. Didn't you tell him about your sick animal once?

Yes, I did, and now Jim is my son.

Dairy Farmers Support Nation-Wide Milk Drive

Little Sam needs more milk from every farm to help win the war. American milk is a mainstay of the food supply at home and the battlefield dairy products keep the boys at the front in fighting trim. The Special milk production program sponsored jointly by the War Food Administration and the Dairy Industry Committee is planned to aid dairy farmers in producing more milk for victory. The 4 points are: provide abundant pasture; plenty of good hay; abundant silage; and dairy farmers for increasing milk output. Best feed and roughage liberally; feed balanced rations using protein concentrates wisely; feed to avoid summer losses; raise calves with less milk and good milk milk to market.

It's all a part of SHUR-GAIN EGGMAN LAYING CONCENTRATE — you feed, see results — mixed with your own grain, provides a low-cost, high-production laying ration!

QUANTITY OF MONEY and volume of credit are matters of high national monetary policy.

Canada's Chartered Banks enter to perform two main services:

1. They receive the savings and other funds of the public, who thus build up bank balances in the form of savings and current accounts.

2. They advance money to communities, corporations and persons to serve their legitimate needs.

Along with these main functions the banks, through more than 1,500 branches and sub-branches, render a large number of other important services related to local and national needs—services which have greatly increased as a result of the war.

But the quantity of money in

circulation in the country at any given time, and the volume of credit, are matters of high national monetary policy. The nation's own central bank, the Bank of Canada, determines them. The Bank of Canada makes extensive use of the Chartered Banks' facilities in giving effect to these policies.

The Chartered Banks' responsibility, clearly established and explained by the Bank Act, is to the credit of commercial banks—that is to receive deposits and to serve the needs of trade and industry.

The Parade Fund

In an effort to raise sufficient funds with which to send the next batch of parade floats, the Parade Fund is holding a raffle. Mrs. Hetherington has donated a large doll and doll truck and together with a number of other ladies have been buying a complete outfit of dresses and other clothing. These will be placed on display at the drug store and tickets will be on sale at most of the stores.

The draw will be made before Christmas so that some little girl may have a real surprise on Christmas morning.

Donations to the Parade Fund are as follows—

Mr. Hetherington \$1.00
Miss Hetherington 1.00
Mrs. Hetherington 1.00

Further donations may be left at Mrs. Hetherington's or the drug store.

Father—I don't think an arch of that big boat you bought this
Wills for Christmas.

Moan—What's the matter with
it?

Father—I tried for three hours
but couldn't open it.

The boat arrived at the docks,
steaming into the sea of smoke,
stepped up a man's foot and ap-
peared.

That's all right, came the answer.
I walk on them myself.

A traveler just home from abroad
was describing an earthquake.

Most amazing thing I ever saw,
he said dramatically. The hotel
roared. Cops and citizens were
strong all over the room, and—

His speech-making companion
tapped suddenly while Great Britain
he cried. That machine was. I for-
got to push a button my wife gave
me two days ago.

There's one guy in our camp
who certainly sits away from his
messmates.

Who's that?

The target.

Father—I'll be glad to help you
with your homework, Junior.

Don (shyly)—Thanks, but I
worry not get it wrong by my-
self.

She—Don't you think you could
go to bed now?

He—I'm afraid not. I've sleep-
ed away.

I want to get ahead for a year
when I graduate, Dad.

RATIONING IN BRITAIN

William F. Miller - It would be
 very interesting to know if you
 were ever in the city of
 London in the year 1848.
 I am sure that you would
 find it very interesting to
 know that the city of
 London was the first to
 have a public library.

The price of a 100-ton lot of steel per ton was 10.1 in month 1, 10.0 in month 2, and 9.9 in month 3. In the first period, however, when the price of steel was 10.1, the price of steel was 10.0 in month 2, and 9.9 in month 3.

The individual Englishmen even thought it was a good idea to travel to England a week or a little more than a half-year. The latter is limited to two weeks a week two points a week.

The history of butter and cream are full of violence such as myself who dine at restaurants. Even in the expensive hotel during the butter is shed with a name and there is never enough for the amount of cream in the cold breakfast.

Nearly all the best in Britain are rationed, including dried foods, cereals, condiments, dried fruits and vegetables, jams and jellies, margarine, fats, cheese, lard and soap, and the minimum allowances seem painfully slim to one accustomed to the American level of life.

Shop prices are a bit like the Piggy Bank rewards. They are limited to three cents of toilet soap a month, which isn't much, but if a month

structure she finds an over-supply of toilet soap on her hands she can use the same coupon to purchase four ounces of hand soap. She is presented with what must sometimes be difficult alternatives between what she wants to use her coupons for toilet soap or laundry soap or kitchen soap.

When the war is over and all the women are trained mechanics what a break it will be for the women who now have to be called upon to fix doorknobs and faucets!

Very Often Forgotten

W. L. Clark, in the *Windsor Star*, says: We want to say a word for the private soldier, the rough, tough, belated son, who alone through war

one wanted to duck from under. Thank g—darn, there are thousands of young men who are in there fighting and asking any favors, and seeking privilege. Their only desire is to draw a hand on a horse and in the country have it. They want to kill a lot of bums and get the war over so they can come home.

PLAN TO MAINTAIN HOG PRODUCTION

During 1944 and 1945

Every good quality hog that can be produced during the next two years will be needed.

The current hogs are covered in the 1944 and 1945 plan. It is estimated that the production of hogs will be 100,000 head in 1944 and 110,000 head in 1945. This is a 10 per cent increase over the 1943 production of 90,000 head.

The plan is to increase the production of hogs by 10 per cent in 1944 and 11 per cent in 1945. This will require an increase in the number of hogs produced by 10,000 head in 1944 and 20,000 head in 1945.

IMPROVE QUALITY

Quality production of hogs is essential for the success of the hog industry. The plan is to improve the quality of hogs by increasing the number of hogs produced by 10 per cent in 1944 and 11 per cent in 1945.

Says Britain And The United States Must Stand Together Against The World Aggressor

It is a fact that the United States is a country of immigrants. The first settlers of this country were immigrants from Europe. The first immigrants to the United States were the Pilgrims, who came to the Massachusetts coast in 1620. They were followed by other groups of immigrants, including the Quakers, the Puritans, and the Irish. The United States has been a country of immigrants ever since.

This Week's Pattern

The counsel general called upon Canada to try to interpret the British Empire to the people of the United States—"to say to them that our society of British nations stands

ready as ever, hand in hand with the United States, to march on together in majesty, in justice and in peace!"

"The British Empire," he said, "is a hard, hard fact, one of the really hard facts of the world today. It is fighting a total war now and after the war it will still be there, fighting for a total peace. When we say we mean to maintain our Empire, it is a defensive statement war is a fact. For British strength is American strength. We support each other."

Turning to Simpson relations, he

Food Stores Sell War Savings Stamps

The Food Industry of Canada is putting on a drive during the month of February for the sale of War Savings Stamps.

Each retail food store, both in this district and the province, has been organized through the wholesale houses in the leading centres of Alberta.

The province of Alberta has sold in sales in this Food Store \$20,000.00, which is 50% larger than the total sales in a similar drive which was held a year ago.

The sale of War Savings Stamps in this district during December was 35% under the quota. By buying extra War Savings Stamps during this drive, you will help to place the district record standing.

It is very necessary that Stamp sales be stimulated in Alberta, as we have been advised by Ottawa that the sales for Alberta are the second lowest in the Dominion of Canada. When you think of the loss showing that Alberta makes in this bond drive and the very low reputation that we have in coming through any undertaking in a successful conclusion, we feel that something has to be done along the lines of promoting War Savings Stamps.

The World of Wheat by G. L. Smead

THE WHEAT SURPLUS IS DISAPPEARING

A few years ago many were considerably alarmed about the Canadian and World wheat surplus. To day that wheat surplus is disappearing to the extent that the United States has become quite alarmed about it. They are looking for farmers to increase wheat acreage, they are importing material from foreign countries that will take the place of wheat, and they have planned to import no less than 175 million bushels of wheat from Canada during this year.

On August 1, 1935, Canada had on hand in elevators and on farms, 601 million bushels. By August 1, 1934, I estimate that Canada still had on hand in elevators and on farms not much more than 400 million bushels, and that the wheat surplus held by farmers on their farms will be almost down to zero.

What a Godsend this large Canadian surplus of wheat has been to the war effort of the United Nations, and how fortunate it is for us all that we refused to listen to the International Wheat Committee and others who some years ago tried to sell us that we should artificially cut down our wheat surplus.

This all proves the truth of the saying "better have wheat than money," because the world, that it is a wrong thing to destroy, or to curtail the production of, is essential for life.

Endangered Municipal Election Situation

The voting in Municipal elections for the M.D. of Saginaw No. 260 in the divisions where candidates were running was fairly heavy, but there was a decided lack of interest in the divisions where the candidates had been returned by acclamation. In two polls, Cromston and Hainstock, the polling was almost all, there being only 5 and 7 votes respectively, registered at these polls.

Charles Fox was elected in Division 1 with a majority of 94; W. H. Metz elected in Division 2 with 75 of a majority over W. J. McCulloch; and J. C. McCulloch elected in Division 3 with a lead of 10 votes over A. R. Gough.

The results were as follows:

- Division 1: Charles Fox 95, Daniel Cromston 241, Frank Landyhouse 260
- Division 2: J. C. McCulloch 204, A. R. Gough 294
- Division 3: W. H. Metz 657, W. J. McCulloch 547, James Watt in Division 4, F. Nishida in Division 5, and B. C. Trickett in Division 7, were elected by acclamation.

In the fall of 1935 the strength of government of grain was lowered by first decision to certain districts of the grain provinces. If found delays in road on road of this kind a further reduction in its ability to move will take place. A reliable source to follow would be to have used with a majority of such action for the control of wheat and other and lower down. The strength of government may be increased rather than decreased, and the government road may obtain some protection from rail have regulation.

Disasters Are Averted for the Red Cross.

A Personal Calendar

If you are conservative, don't read this.

If you are interested in saving, of the end of the month, the Director spent for the postal calendar being more fully with the same subject. It has given you a calendar which may, perhaps, be adapted for your use, and which was here just after your from gratification into government.

The new calendar, the edition of which is prepared by the World Calendar Association, is a complete work. It will show the year in its four equal quarters of 90 days each. The first month of each quarter would have 31 days and the other two 30 days each.

The observant reader immediately knows that this leaves one day more and two extra in leap year, and that would mean that in less than a couple of centuries, water would be coming in the summer and summer in the winter. The problem is overcome by having a Year-End Day (called Y.E.D.) between the last day of the year and New Year's Day. This would be a world holiday, leap year would be given recognition by means of a day called Y.E.D. between June 30 and July 1, and Y.E.D. would be a world holiday.

If the new calendar is adopted, Christmas Day will always fall on a Monday and your own birthday will always be on the same day of the week. We quote from the "American Chronicle": "This perfect world calendar is identical in structure, preparation in form, importance in importance."

Like Christmas again will gladly order extra copies for use in company.

Synthetic Rubber Plants Now Producing Rubber For War Purposes At Huge Plant

The search for a satisfactory substitute for rubber has been going on for many years in many countries and much research has been being done with synthetic "chemically speaking rubber and petroleum are closely related. In a later issue we shall discuss various and hydrogens in such a way that the carbon forms rubber in its natural state and then is changed into a synthetic rubber by the addition of hydrogen.

During the war, the synthetic rubber plants in the United States have been producing synthetic rubber in such quantities that it is now being used in many of the war materials. Perhaps half-way through this job of destruction the records showed more than 24,000 long tons of bombs had been used on most countries.

Cultivation
One real cultivation before planting will save hours of labor later on and a good deal of disappointment. Any authority on gardening stresses the importance of thorough preparation of the soil. This applies to mesa vegetable and flowers.

Gardening beginners often make the mistake of asking for varieties that perhaps were popular many years ago, without realizing that there has been vast improvement and much better kinds are now available. Plant breeders have been steadily turning out better varieties, bigger, earlier and more tender than many

All the points are most important, and especially to the beginner or the gardener in parts of Canada where early frosts are all too frequent. These varieties are much too numerous to be mentioned in detail here. The prospective gardener is advised to secure a good seed catalogue or up-to-date government bulletin which lists varieties suitable for the various areas of Canada. Incidentally, all varieties listed in Canadian seed catalogues are specially selected to thrive under Canadian

The easy test to determine what the soil is goodly is to walk across it. If it is sandy and sticks tight to the shoes, then it is best to allow it to dry and come down. If it is sandy and crumbles down and crumbles when walked and tramped on then only, it is in good. This is the old test of the old farmer.

Fi-iorial Exhibition Celebrated Open-
ing Of London Is Deep

Nearly a hundred years ago the railway between London and the Channel port of Dover was opened for public traffic. To mark this centenary a special exhibition was held at Dover, opened by Lieutenant Colonel J. J. Aspley, member of Parliament for Dover.

The inhabitants of Dover from the exhibition catalogue had assembled on the cliffs to witness the arrival of the first train from London and soon after 12.30 p.m. the engine "King Lear" was seen emerging from the balustrade "Chunnel".

At the official celebration prominent guests from London and from French towns across the Channel were present. The present exhibition

articles, posters, line-tables, panes and photographs. Contemporary artists, writers and poets were having difficulties that had to be overcome between Paris and Dover, and it was not always possible to travel over a mile long. Another artist, working on the following way, was the same, generally, from the "Black" as it was called was accomplished with a simple change of eight lines, and the result was a statement. Many distinguished individuals were present to see the effect.

In his speech, at the very beginning of the conference, the speaker said that the link, established a hundred years ago between London and Dover, had been invaluable in Britain. In previous times, it carried thousands of troops, and it was a link which was a main supply route for the British army in France, and few did not know that part played in the war of 1914-18.

The speaker, then, was the Duke of Devonshire, who concluded by saying that nowadays Britain lived in a world of peace, and that the link that before began, the railways of the country would be working to replace the old link, and the link between the United States and the Continent of Europe, and thence to group the energy back into the country.

Allied Naval Supremacy

THE ALLIED DOMINANCE of land and air operations has made the issue of naval supremacy in recent months, yet it should not be forgotten that the Navy is at all times playing a very active part in the great allied advance. The duties of the Navy in carrying troops and supplies to the fighting fronts are stupendous, and it is also a most important factor in all amphibious operations. As V. V. Alexander, British First Lord of the Admiralty, recently gave some interesting information concerning the work of the Royal Navy, when he presented the naval estimates for the approval of the House of Commons. Referring to the support given to the Allied campaign in Africa, he said that during the second half of 1943, more than one ship in a thousand sailed in Allied convoys, had been sunk by enemy action. This figure was compared with the losses in 1941 which were 124 in a thousand, and in 1942 when the losses were 223 out of every thousand ships.

Sub Marine in SW Service

A crew training was contained in Mr. Alexander's message to support the estimate. He pointed out that Germany now has at least as many submarines as she had at the beginning of 1942, and that the British have been pouring out the greatest number of the best, a more numerous, and possibly other improvements. They have also retained their fleet of operating submarines, including the Indian Ocean. This was the reason, he said, that the Mediterranean route to the East is now being freely used by ships of the Allied convoys. "The route," Mr. Alexander, "is now about one million gross tons, and the thousands of British and Italy together have brought in half as much as they have been pouring out. We reach the long and crooked voyage which had to be taken by Allied ships before the Mediterranean route made it, it is not difficult to make the importance of this discovery."

Looks Forward To Offshore

Referring to the many offshore actions which the British Navy has been fighting, Mr. Alexander said that the Navy is looking forward to the day when the last of the German U-boats will be driven off the coast of the British Isles. "The day," he said, "when the last of the German U-boats will be driven off the coast of the British Isles, the day when the last of the German U-boats will be driven off the coast of the British Isles, the day when the last of the German U-boats will be driven off the coast of the British Isles."

May Be Perpetrated

Canadian Navy Ministry has been informed that the British Navy is looking forward to the day when the last of the German U-boats will be driven off the coast of the British Isles. "The day," he said, "when the last of the German U-boats will be driven off the coast of the British Isles, the day when the last of the German U-boats will be driven off the coast of the British Isles."

GERMAN NAVY

Though Atlantic convoys are now being made to re-constitute for the British Navy, the German Navy is still a formidable force. It is estimated that the German Navy is still a formidable force. It is estimated that the German Navy is still a formidable force. It is estimated that the German Navy is still a formidable force.

This German night raid was one of two which were shot down over Britain when they made a retaliation raid on London recently.

This picture of a Fleet Air Arm Walrus flying boat was taken from the destroyer, shown in foreground, while both were on convoy duty escorting merchant shipping through the U-boat-infested Atlantic.

FORE and BEARS THIS BEASTLY NOVEL-FULL

V . . .

Conductor—What's that you're talking on your lap?

Passenger—It's an unexploded bomb I'm taking to the police station.

Conductor—Goodness man! Put it under the seat.

Joe—Jim prepared to me last night, and I'm now at his, Josephine—What makes you so mad?

Joe—You ought to have heard what he proposed.

Visitor—I'm surprised you have never returned, Mrs. Field.

Mrs. Field—Search as I have I got the place I 'nd when I was younger I don't think I could ever bring myself to see another man.

Wife (to her maid) Don't drive so fast, George!

Hermaid—Why not?

Wife—That policeman on a motorcycle, behind me, can't get . . .

What's that building? select the strongest.

That's the asylum for the blind, said the native.

Oh no, you can't fool me, said the stranger. What's all them windows for?

straw—Did Frodo get in any trouble while I was away?

Man—N thing 'cept as he was real a boy, but I gave him some of that insect powder right away, so there's nothing to worry about, me an.

She still talked of her prouder hour of Europe. Paris, she gushed reverently is simply wonderful. The people are so well educated. Why even the street cleaners speak French.

The modern mechanical genius is the up side man shift gears in an Austin without getting his face slapped.

Jack—Late hours are not good for me.

Moth—But fine for two.

She—Do you think I show distinction in my clothes?

He—Distinction? I think distinctly would be a better word.

Sentry—Halt, who goes there?

Drifter—Oh, you wouldn't know me I'm one of the new ones.

Ye look worried soldier, what's the matter?

Ah, there's so many women in uniform these days, we'll have a walk to see who's who should salute or whistle.

First Objective

In these decisive months all Canada's effort is concentrated on one great objective—the attack that is to destroy the Nazi menace and all that it represents. Years of work have gone into its preparation. The best of our young men are staking their lives on its success.

We in Canada must support and strengthen this attack with all our effort. This one purpose must command our work, our minds and our hearts.

We must not permit any assembly for private gain or individual selfish ends, to distract us from our main task. If we concentrate on seeking, individually or jointly, higher prices,

higher pay or higher profits, we shall be diverting our attention from the main task at this critical time. We shall also endanger the stability of prices which we in Canada have achieved after great difficulties—a stability that is essential to efficiency and fairness in war, and to prosperous prosperity afterward.

Our young men are fighting for a Canada and a world in which all men can have faith, hope and security. Each of them wants to come back to a job—a firm—with a future. We at home must keep secure for them a strong and stable foundation on which alone a post-war period of promise and achievement can be built.

This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing further increases in the cost of living now and deflation later.

System of District Libraries Seen As A Post-War Project In Many Rural Communities

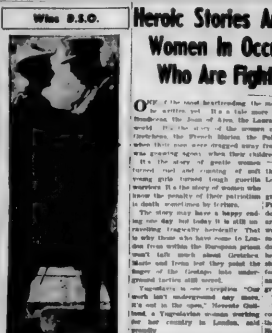

WHICH Canada has been doing such a fine job of doing in the past few years, there is a growing realization that there is a need for a post-war project in many rural communities. Post-War Housing

PHOTO DEVELOPER CONTINUED. In a recent radio address, death at some length on those for post-war housing are now being done up in the West. The need for these plans is urgent, for it is estimated that in the first ten years after the war, 1,000,000 permanent new homes will be required there. Considerable study has been given to the subject and the results of the study are being presented to the government. Despite the number of reports have been made on the necessity of great control to problems relating to residential development. It has also been recommended that a "master plan" be made for the proper use of Britain's land resources. Sir Churchill has recently the most urgent needs of the country after the war on food, work and income, putting housing among the most necessary post-war requirements. Housing damage has destroyed many residential areas in the United Kingdom, and has greatly aggravated a shortage of living accommodation which had been evident even in times of peace.

Smaller House in Post War

The housing situation in Britain, and the manner in which it is being handled, is of much interest to Canadians, for we have a similar problem with a more serious economic situation. While the housing requirements have not much the proportion reported in Britain, it is believed that from 100,000 to 1,000,000 new dwellings will be needed after the war for the relief of overcrowding and slum areas, and for the demand for new homes in the interval. Housing authorities report that at the present time we have a shortage of about 100,000 new dwellings, of all types, and it will be adequately met. A sub-committee of the Canadian Advisory Council on Housing and Community Planning, and their work has provided many interesting hints relating to the housing situation in Canada.

Special Study Of Post War

The importance of town and community planning has been emphasized here, as it was in Britain. There have also been proposals to expand to modifying the financing of new houses, or of repairs to dwellings now in use, both in urban and rural localities. Attention has been directed towards the housing situation in farming communities, and it is estimated that 100,000 farm dwellings will require repairs and improvements, and there will be need for about 120,000 new farm houses, in the post-war period following the war. For some time it has been felt that rural housing is a happy circumstance, and that efforts should be made to plan farm houses adapted to the needs of rural life. It is suggested that conditions should be taken into account in the planning of new farm houses, and that efforts should be made to plan farm houses adapted to the needs of rural life. USE HOUSES AGAIN

BE WISE

The most time a printing
 man can spare on any
 day is to be a local printer
 who does his own work.
 And remember that every
 dollar you spend at home is
 money to circulate and every
 cent that flows in your bank
 is yours. Think it over.

ADDRESSES ON THE MOVE...

This Mail has PRIORITY

WHEN a man is wounded in action or seriously ill,
 he is rushed through field and base hospitals with
 all possible speed, to the place where most effective treat-
 ment can be given. Because of this rapid movement, his
 mail may not "catch up" for some time, yet, if it ever
 is brought for a home four hours, it is as such a time.

To offset possible delays, a new "Short-Cut" mail
 service has been put into effect. A Priority Casualty Card
 is filled in and rushed by Air Mail to his friends or
 relatives with instructions to add the words "In Hospital"
 to the unit address they usually use.

Letters mailed from Canada bearing the words "In
 Hospital" are rushed direct to the casualty office in the
 United Kingdom or the Central Postal Directory, where
 the card may be. They are given preference to transport,
 whether sent by Air Mail or regular mail. Thus they will
 reach the addressee faster than ever before.

It is inevitable that in moving men who have been
 injured or wounded, some delays occur. But you can rest
 assured everything that can mean speedier delivery of
 letters to your men is being used and thoroughly done
 and will be done.

When you get a Priority Casualty Card to read the
 words "In Hospital" are added to the regular unit address
 that usually comes.

Victory Loan Only at Half Way Mark Here

With only a little over one month left in which to reach our objective of 77,000, this district has up to today contributed \$35,550, or just over 45% in the current Victory Loan drive.

In the past we have over-subscribed every loan and before the month close on May 15th, we hope to again be over the top. However, we will have to make up if we are going to do this. The only right days left and the only half way to our goal.

We can do it if every one will do their share. We must do it in order not to let them hang down who have not a free this and every other district to fight for Canada and us. We must keep them supplied with plenty of the best of materials with which to finish the job quickly.

This is our part up. Victory and we can only do our part if we buy all the bonds we can.

Village Council Notes

At the Village council meeting on Tuesday night it was decided to reduce May 24th a civic half day and all business places will be closed at 1 o'clock on that day. This will give them from the country a chance to do their shopping in the morning and attend the sports during the afternoon.

An application for provision to open a trading shop was received and passed. Council also received an account from the C.P.B. for sending more from the north country. This account in order as we are regularly being for again and later under an agreement by which this account to begin open. However the account was a bit out of date, as it was the February 1943 and from 1943 and the account did not take into account the work done in 1943 and 1944.

Display to Add Loan

Plans are completed for the display which the Carstairs group will put on at the Carstairs at 4 o'clock to support of the current Victory Loan.

The show will be organized by the Carstairs group. The Carstairs group will be responsible for the display. The Carstairs group will be responsible for the display.

The public display system will be used to give a running account of the proceedings.

Window Now Has 119 Local Pictures

Our beautiful and extensive picture window on display in Barclay's window and others are still being brought in. This is a splendid collection of pictures of the war and scenes which are serving in the grand forces from this district and everyone should make it a point to inspect this window before the display is discontinued on May 15th.

It is hoped the relations and friends will bring in any addition of pictures immediately, so as to have the display on complete by Saturday.

Global War

"GLOBAL WAR" is a term which is frequently used in connection with present conflict, and its meaning is often misunderstood. It is the world to which, the apex of this phase is increasingly apparent. When war was declared in 1914, the world was divided into two camps. The United States, France, Italy, and the United Kingdom were on the one side, and Germany, Austria, and Hungary were on the other. The United States, France, Italy, and the United Kingdom were on the one side, and Germany, Austria, and Hungary were on the other. Are United By Common Bonds

Through the time of the armed forces, who are serving in many parts of the world, Canadians have become more conscious of the bonds which unite them with other members of the British Empire. In the United States, Canada has not participated in any great measure in the war against Germany. In the United States, Canada has not participated in any great measure in the war against Germany. More Heads Wound In Fight

The numbers of the great advance made by the Japanese at the beginning of this month have made it difficult for observers to predict the length of time it may take to achieve victory in this situation. WE'VE GOT TO BUY MORE VICTORY BONDS

Of course we've been asked to buy bonds before... and we've bought bonds before. We've asked to buy bonds before... and we've bought bonds before. We've asked to buy bonds before... and we've bought bonds before.

WE ARE ONLY ASKED TO LEND OUR MONEY

We are not asked to give anything. We are only asked to lend... and lend. That does not entail much hardship. [In a matter of fact, when we lend our money and invest it in Victory Bonds, we are doing something for our own personal benefit.] Surely we can do this much.

You are the only man that has been asked to buy bonds before... and we've bought bonds before. You are the only man that has been asked to buy bonds before... and we've bought bonds before.

ALL THE BONDS YOU CAN

If you haven't the cash, remember you can buy Victory Bonds on convenient deferred payment plan for those on your own. The money, after a period of six months, will be paid back to the man who is fighting.

Russia Supplied With Equipment From Britain

LENTWYN Britain supplied Russia with 304 tanks and 378 airplanes—more than 400,000 tons of material—more than 11,000,000 dollars' worth of supplies from Oct. 30, 1941 to March 31. These figures, the Ministry said, showed in the 11-44-45 of the war.
